FIFTY-FIFTH YEAR No. 55

LINCOLN, NEB., TUESDAY MORNING, DECEMBER 4, 1956

FIVE CENTS

9 KILLED IN N.Y. PIER EXPLOSION

Hwy. 34 Wreck Kills 2 Airmen

APs Die Instantly, 2 Others Hurt; Death Car Swerves, Hits Another

By AL EDEE
Star Staff Writer

Two Air Policemen from Lincoln Air Force Base were killed instantly late Monday when the car in which they were riding collided with another between the base and West Lincoln on Highway 34.

Dep. County Attorney Dale Fahrnbuch identified the dead as A/2c Robert F. Merritt, 20, and A/3c Donald L. Forbes, 21, both of the 818th Air Division.

Safety Patrolman V. R. O'Neal said the dead men's southbound car apparently swerved onto the right shoulder and then back across the highway into the path of an oncoming vehicle.

The two airmen riding in the second car were both in fair condition at St. Elizabeth's Hospital early Tuesday morning.

Injured were: Theodore S. Channing, 21, and Walter Czerwik, 21, both of the 307th Field Maintenance Squadron at LAFB.

Among the injuries suffered by the pair were: Channing, lacerated left knee and facial lacerations; Czerwik, forehead laceration and contusions.

All four men were apparently single and had no relatives living in Lincoln.

Investigators said one of the airmen was thrown from the death car and the other trapped inside.

Trooper O'Neal termed the car "completely demolished."

The second car, in which the two were injured, had the front badly caved in and the motor driven part way back into the front seat.

The two cars met at about a 45-degree angle.

Cold Delayed But Not Lost, Forecast Says

A new storm in the north Pacific states prevented a cold Arctic air mass north of here from penetrating as far south as expected Monday and gave Nebraska one more unseasonably warm day.

Lincoln's 66 degrees, which broke the record of 60 on the same date in 1941; Grand Island 65—old mark 64, set in 1916; and Omaha 62—old mark 62, set in 1951.

But the prospect of wintry cold returning to Nebraska was only delayed.

The Weather Bureau expected the snowstorm from the Pacific Northwest to spread into northwest Nebraska by Tuesday morning and into southern Nebraska by Tuesday night.

No Cold Wave
Snowfall is not expected to be too heavy and the Weather Bureau said the developing storm would prevent temperatures from falling to cold wave proportions in this area.

Meanwhile, the Arctic storm to the north of here was moving on eastward without pushing as far south as Nebraska.

High temperatures in the state Tuesday were expected to range from 35 in the north to 65 in the south.

County Given Shortest Will For Probate

Perhaps the shortest will in the history of the Lancaster County Court was filed for probate Monday.

The testator was Joseph C. Knibbs of 2520 M, a retired school teacher who died Nov. 23.

The will, written on a small sheet of note paper, "bequest all I have to the History Department of the University of Nebraska in recognition of seven years of study and work in that department."

Mr. Knibbs, 70, was a former superintendent at Daykin and Clatonia. He was a graduate of the University of Nebraska.

Ban Lifted By Charter Committee

Council Could Allow Officials To Deal With City

By BETTY PERSON
Star Staff Writer

The Lincoln Charter Revision Committee Monday adopted a proposal which would remove the present ban against city officers or employees having a financial interest in any contract or business dealing with the city.

The Committee also gave tentative approval to a proposal calling for broadening of general powers of the city.

Under the tentatively approved proposal, the city would have, in addition to rights and powers held under the charter, all powers granted heretofore to all cities and villages.

It would also have all powers granted by the Legislature which are of state-wide concern. It was pointed out in this connection that matters of statewide concern must be accepted because they supersede charters.

Any future legislation, however, on new powers of local concern granted to cities and villages must be referred to a vote of the people.

Left To Council
In removing the ban against city officers or employees having a financial interest in businesses dealing with the city, the Committee specified that the Council shall by ordinance provide the extent to which, if at all, any city officer or employee may be financially interested in contracts or other business dealings with the city.

Public or private development of land is included in this provision.

Under the new provision, such ordinance shall prescribe penalties for violations of the provisions of the ordinance . . . including forfeiture of office or position, the voiding of contracts, and any other appropriate penalties.

'Lift Cloud'
Consultant Wayne Anderson said this proposal would "lift the cloud" surrounding public office which he said exists in Lincoln to a greater extent than in any other city of his experience.

In other action the committee approved a proposal which would permit consolidation with other governmental sub-divisions as allowed by state laws. This is aimed particularly at permission for consolidation of city and county tax and assessment departments.

One of the provisions of this proposal was described as "urging the city, through authority granted it, to take the initiative in matters of consolidation with all governmental sub-divisions in which the city has an interest."

No Utilities Board
Expressing satisfaction with the present plan of leaving operation of utilities in the hands of city directors, the committee decided against creation of a utilities district or board.

They left it open for the council to appoint an advisory board for utilities if it so desires, but it was the committee's feeling that an administrative board would serve to diffuse responsibility.

The committee also agreed to leave to the present ordinance system the matter of establishment of parks and recreation boards rather than incorporating it in the charter.

The matter of an organization for management of the auditorium was incorporated in a provision which would permit administrative boards, commissions and authorities to be established by ordinance when such are deemed necessary.

EXPLOSION-SHATTERED BROOKLYN PIER

Smoke billows skyward in this aerial view of Brooklyn Pier following a shattering explosion and

fire Monday. Fireboats hug the pier as they pour water on the blaze. The pier is owned by New

York City and its 1,748-foot length makes it one of the long-

est along the sprawling waterfront. (AP Wirephoto)

Hungary Red Cross Orders Relief Halt

Bad Handling Of Food Distribution Is Probed By Budapest Chief

VIENNA, Austria (AP)—Budapest radio announced Monday night that the chief of the Hungarian Red Cross had ordered the distribution of food relief in Budapest stopped.

Dr. Gyorgy Killner, the chief, said he was seeking clarification of reports that "some of the aid is not being delivered on the basis of principles agreed on."

Dr. Killner, speaking over the radio, announced that "We do not consider it assured that the food is given to the needy in each case. We have found that storing and handling of food in several places is insufficient."

He added that many Hungarian Red Cross distribution organizations have proved inexperienced and badly directed.

Dr. Killner said a new food distribution setup, using identification cards and filing systems, has been worked out.

Free Meal
Just before Dr. Killner's broadcast, the International Red Cross reported here Monday it had started to provide a free meal daily to 223,000 of Hungary's children.

In announcing details of one of the largest Red Cross aid measures since the World War II, Red Cross chief I. W. Meyer told a news conference some 500 tons of medical supplies, food, clothing and fuel are now being distributed in Hungary each week. This full program of aid, due to last for at least five months, has come into operation now that a sufficiently efficient relief distribution exists in the rebellion-torn country, Meyer said.

The Red Cross official said he was "completely satisfied" that all the aid sent into Hungary from the West "comes into the right hands."

According to Meyer, just returned from Budapest where he personally negotiated with Red Cross and government officials on the relief program, distribution is carried out entirely by the Hungarian Red Cross. About 25 Swiss Red Cross officials now in Hungary act as an advisory council and control the aid deliveries.

Meyer said the Hungarian Red Cross is now providing 3 1/2 ounces (100 grams) of powdered milk daily to 173,000, aged up to 6, while 50,000 Budapest school children between the ages of 6 and 14 will receive a warm meal daily. The Red Cross intends to extend its meal program to include older children and later on even to adults, Meyer declared.

Some Deported
BUDAPEST, Hungary (AP)—A government spokesman admitted for the first time Monday that Hungarians had been deported to Russia by Soviet police — in "isolated cases."

But Istvan Szirmai, press chief for the Soviet-imposed Janos Kadar regime, declared deportations were stopped two weeks ago and those deported all had been returned to Hungary.

He denied fighting with rebels was continuing in Hungary, but conceded that "scattered armed bands" were still at large, that "criminals" still presented a security problem in Budapest and that sullen Hungarian miners were digging only a third of the coal they produced before the revolution.

These admissions and denials were made by Szirmai at a dramatic news conference with five Western reporters who questioned him for two hours in the Parliament Building, still ringed by Russian tanks. It was the first time Western reporters had been able to get in to see a high-ranking member of the Kadar government.

Officials said that the planes were based at Wold-Chamberlain Field, Minneapolis.

The names of the dead and of the lone survivor were not immediately available.

FIRE FOUGHT BY SKIPPER OF ENTERPRISE

NEW YORK (AP)—Capt. Kurt Carlsen, one of the great sea heroes of recent times, and the namesake of his famous ship, the Flying Enterprise, were supporting players Monday in the tragic drama of Brooklyn's dock fire and explosion.

When the explosion ripped the Brooklyn waterfront, tied up at Pier 29 was the Flying Enterprise No. 2.

Aboard Monday with the rest of his crew was Carlsen, who won fame in 1952 for staying with his storm-wrecked and badly-listing ship for a dozen days.

Flaming debris from the explosion on Pier 37 set afire pier 29. Ships all along the waterfront were being pulled away from their docks.

But the Flying Enterprise did not leave for an hour and 10 minutes. First she used her own fire-fighting equipment to put out the fire on Pier 29.

Carlsen

Carlsen said it would set up machinery eliminating the "competitive bidding" which he said had created friction and duplication among some agencies.

During floor discussions of various sections of the report, Gov. Leo Hoegh of Iowa asked that the federal government accelerate its topographical mapping program to allow states to block out their underground water resources for long-range irrigation use.

Davis, in speaking to reporters after the meeting, expressed concern at the rate at which water levels were dropping in some states.

'Frightened' By Wells
He said he was "frightened" by the 14,000 irrigation wells spewing water out of the ground between Lexington and Central City in Nebraska.

He emphasized that the states would be forced to take legislative action soon to control the drain on underground water, but brushed aside any suggestion that federal action would ever be necessary.

The committee, which took no action on the report, elected Gov. Joe Foss of South Dakota chairman for the coming year, and Governor Simpson as vice chairman.

The report, which was prepared

U.S. Calls For Quick Restoration Of Suez

Ike, Dulles Hail Anglo-French Decision To Pull Out Troops

WASHINGTON (AP)—The United States Monday called for quick action to restore use of the Suez Canal, and its operation in keeping with principles approved by the United Nations on Oct. 13.

A statement personally approved by President Eisenhower and Secretary of State Dulles hailed the British-French decision to withdraw forces from Egypt.

"The United States welcomes this decision," the statement said. "Its implementation will strengthen the capacity of the United Nations to deal with the other aspects of the other Middle East problems which are still unfinished business."

In calling for prompt reopening of the blocked waterway the statement said:

"As the United Nations forces replace those of the United Kingdom and France, the clearance of the canal becomes imperative. Every day of delay in restoring the canal to normal use is a breach of the 1888 treaty and a

wrong to the large number of nations throughout the world whose economies depend so heavily on its reliable operation."

To help achieve a lasting peace, the statement said, the United States will continue to support fully measures needed to make the United Nations police force "adequate and effective for its mission."

Without spelling out any details, the statement expressed U.S. determination to help in bringing about a permanent settlement "of the other persistent conflicts which have plagued the Middle East over recent years."

Co-operation
The United States has repeatedly said, the statement added, that the United Nations "cannot rightfully or prudently stop merely in maintaining peace."

The "unstinting co-operation" of this government, it said, will be placed at the disposal of the United Nations secretary general, Dag Hammarskjold, in this continuing task.

Press officer Lincoln White of the State Department read the statement at a news conference. He said both Eisenhower and Dulles personally had approved it and that it was "a government statement."

Sound Retreat
LONDON (AP)—Britain day for their military forces in and France sounded retreat Monday for their military forces in Egypt. Yielding to pressure from the United States and the United Nations, the two agreed to get their troops out of the Suez Canal area without delay.

"Home by Christmas" was the watchword in British-French barracks on the canal.

The two governments set no date, but U. N. Secretary General Dag Hammarskjold expressed hope in a statement issued in New York that the withdrawal will be completed and U. N. police will have taken over full control of Port Said within two weeks.

Clear Out
At the same time Britain advised Israel to clear out of the Gaza Strip as well as the Sinai Peninsula territory it captured in a lightning war launched Oct. 29. Foreign Secretary Selwyn Lloyd suggested that the Gaza Strip, which the Israelis regard as historically a part of Palestine should be made a responsibility of the United Nations.

Fire And Blast Spread Havoc On Waterfront

More Than 200 Injured; FBI Probes Brooklyn Disaster

NEW YORK (AP)—A raging Brooklyn pier fire suddenly hit a mountain of explosive cargo Monday, touching off a towering blast of tremendous force. Nine persons were killed and 247 injured.

The shock radiated 35 miles from the explosion. Windows were shattered as far away as five miles.

Three of the victims were boys — lured to death by the brilliant spectacle of black smoke laced with flames against a balmy blue December sky. The explosion killed them in their tracks.

Many of the injured also were spectators, unaware of impending peril as they watched the fire on the Luckenbach Steamship Co.'s Pier 37—at 1,900 feet the longest single-decked pier along New York's 350 miles of waterfront. It on Gowanus Bay in southwest Brooklyn.

Mysterious Phone Call
A mysterious telephone caller with a heavy male voice told the New York Times two hours in advance of the fire that "something big's going to happen on a Brooklyn pier this afternoon."

The Times said a clerk at the newspaper's city desk assumed the

caller was referring to a current waterfront labor dispute, and started to transfer the call to the ship news department.

But either the caller hung up or the call was lost in the transfer. After the explosion, the clerk remembered the call and reported it. The Times informed the police.

Later in the evening, however, the Times received a second call, presumably from the same person. The caller said the first call referred to crew dissatisfaction aboard a British ship, and had nothing to do with the fire.

The FBI and police, fire and District Attorney's office officials, meanwhile, were checking on the possibility of sabotage.

"They are investigating the possibility of sabotage," Fire Commissioner Edward J. Cavanagh told reporters.

The city estimated damage to piers alone at 10 million dollars. Around the harbor fringe of Brooklyn the additional damage was almost incalculable.

An oil tanker caught fire from the explosion, but five other ships were towed to safety.

Hurled From Fireboat
The blast knocked seven men off an eight-man crew off the city's fireboat "Firefighter." The lone man not hurled into the harbor kept the fireboat's pumps pouring water onto the blaze until his mates were rescued and replaced by other firemen.

A crew of 223 longshoremen worked on the pier during the day. Not all of them were still on shift when the fire broke out.

William Langusker, 51, a Brooklyn businessman, was watching the fire from the roof of the nearby Bush Terminal, a waterfront office center where hundreds of men and women work.

2-Block Sheet Of Fire
"All we could see was black smoke," he related, "when suddenly it turned into an inferno. A solid sheet of flame at least two city blocks wide and half as high as the Empire State building roared up."

Francis Anderson, 50, of Brooklyn, was nine blocks from the pier when it went up.

"It hit me as though someone had pushed me back," he said. The fire broke out about 3 p.m. The explosion came half an hour later.

4-Hour Battle
The fire department literally stripped Manhattan and Brooklyn of equipment to fight the inferno. It took four hours to bring it under control.

Long after dark, fitful flames still rose and fell near the end of the shattered pier as fireboats cascaded water into them.

The blaze apparently started near the end of the pier where it juts into the harbor. Checker Thomas Hendrik, 59, a retired police sergeant, saw it first in a pile of sisal—an inflammable hemp substance used to make twine.

As they swept along the dock, the flames engulfed a mountain of tin-box cargo — paint, lacquer, rubber cement, chemicals and fuels. It was this inflammable mass that exploded.

The force of the detonation shook the towering masonry of Wall Street and the rest of downtown Manhattan across the harbor.

Pier Supt. Clarence Gunther said a man standing alongside him was decapitated.

Today's Chuckle
The yokel, on his first visit to the city, walked out of his hotel and approached a cab parked on the curb.

"Taxi?" he asked. "Yes, sir," the driver replied brightly. "I thought so," mumbled the yokel, as he walked back into the hotel.

Federal School Aid Approval Predicted

Outlook Is 'Very Good'—Folsom

... In Next Session

WASHINGTON (AP)—Secretary of Welfare Folsom said Monday "the prospects are very good" for enactment of a federal school aid program during the next Congress.

"I think the President can certainly get a good majority of the Republican members of Congress to support his program—I'm quite sure of that," he declared.

Federal aid to education, embodying more than a billion dollars of school construction grants to the states, was killed in the House last session in a wrangle over inclusion of an antisegregation rider.

As a guest on a recorded radio program, Folsom said he hoped the measure would not founder again on the racial segregation issue. He said it was up to the courts to take care of the segregation-integration issue, while federal government helps in the program of aiding classroom construction.

Folsom said the question had not arisen on possible denial of existing aid to local school districts affected by governmental activities where segregation is still practiced. These are the so-called federal "impact" areas.

Haigler Roadblock Victims Counted As Traffic Deaths

Nebraska's traffic death toll jumped to 279 for the year with the announcement Monday that the two men killed Nov. 26 when an automobile plowed into a roadblock near Haigler will be counted as traffic accident victims.

The move, which reversed an earlier decision not to classify them as traffic deaths, was announced by Director Robert Pease of the State Accident Records Bureau.

The new total compares with 295 traffic deaths at this time last year.

Pease said the Bureau was advised by the National Safety Council that in the only similar accident it knew of, the state involved had classified the deaths as traffic deaths.

Killed in the Haigler crash were Ronald Clark Welborn, 18, of Denver, listed by the FBI as a fugitive, and Gene Robert Cox, 23, of Maryville, Mo., a hitch hiker who with his brother, Lloyd, 25, had chanced to catch a ride with Welborn. Lloyd was injured in the crash.

Officers said the car driven by Welborn, reported stolen in Kentucky, outran a pursuing Safety Patrol car before it hit a truck pulled across the road as a roadblock.

Pinza Suffers Second Attack

GREENWICH, Conn. (AP)—Singer Ezio Pinza suffered a heart attack Monday and was reported on the danger list at Greenwich hospital.

A hospital spokesman said the 64-year-old bass was in satisfactory condition and his name was placed on the critical list as part of routine procedure in such cases. He said Pinza had a "coronary occlusion."

Pinza was stricken at his home in nearby Stamford.

It was the second heart attack in less than four months for Pinza, who announced after the last one (in August) that he did not plan to sing again.

Pinza made his name in opera, then went into musical comedy, starring in "South Pacific" and then "Fanny."

He was to start rehearsals for "A Very Special Baby" last September, but the heart attack changed that. He canceled his contract.

He lives in Stamford with his wife and three children, Celia, 15, Peter, 13, and Gloria, five.

Military Spending—IKE, WILSON TO CONFER

AUGUSTA, Ga. (AP)—President Eisenhower and Secretary of Defense Wilson will confer here Friday on Pentagon plans reportedly calling for 33 billion dollars in military spending in the new fiscal year.

That is a two billion dollar increase over estimated defense outlay for the current year, which ends next June 30. Most of the expected hike is being attributed to the rising cost of weapons and equipment.

In announcing plans for the Friday session, Eisenhower's vacation headquarters said present indications are he will stay on at Augusta longer than the two weeks he had planned originally.

Postponed Indefinitely
James C. Hagerty, White House press secretary, forecast the extended visit after disclosing indefinite postponement of Washington meetings Eisenhower had scheduled with congressional leaders Dec. 13-14, for discussion of the President's legislative program for 1957.

York Man Is Injured In Car-Truck Collision

DONALD A. RICH, 23, of Route 2, York, suffered a severe head laceration and abrasions in a car-truck collision 12 miles west of Lincoln on Highway 34.

Rich was driving a car at the time. He was treated at St. Elizabeth's Hospital where he was reported in fairly good condition.

—Federal Action— Interest Boosts Okayed

Banks Authorized To Raise Earning Rate To 3%

WASHINGTON (AP)—The government moved Monday to erase the tight money market by authorizing an increase in interest rates to 3 per cent on savings accounts and some time deposits and certificates.

The Federal Reserve Board and the Federal Deposit Insurance Corp. (FDIC) made a joint announcement of the action. They said the purpose was two-fold: to encourage savings and at the same time make more money available for capital investment.

Effective Jan. 1 interest on savings accounts in all insured commercial banks may be raised from 2½ to 3 per cent. The same increase was authorized for time deposits and certificates of more than six months duration.

The interest rate on time deposits and certificates running from 90 days to six months may be raised from 2 to 2½ per cent. There was no announced change in the maximum permissible rate of 1 per cent payable on time deposits and certificates of less than 90-day duration. Time deposits generally come from corporations and business houses which agree to leave their money in the bank for a specified minimum period.

Optional
The increased interest rates are purely optional. Although the present authorized savings account rate is 2½ per cent, not all banks pay this. Many, especially in the smaller banking centers, pay only 2 per cent.

Government officials feel that much of the nation's savings is being channeled into savings and loan corporations, which usually pay a higher interest rate. Some, with the addition of "dividends," pay an effective interest rate of 3½ to 4 per cent, although the present average is 2½ per cent.

Money deposited with savings and loan groups is usually invested in long-term mortgage loans, rather than in shorter-term capital investments.

The officials noted that Americans had savings accounts now totaling about 50 billion dollars.

Lincoln Officials Doubt Immediate Effect Here
Spokesmen for Lincoln commercial banks expressed doubt that the government permission for a half per cent increase in interest on savings and time deposits would have an immediate effect here.

Loosening of federal restrictions they explained would have a greater effect in areas where money tightness is more critical.

Lincoln banks, they said, have sufficient money for regular commercial credit needs and such tightness as exists is confined to extraordinary instances.

It is possible that the federal action will grant a measure of relief to Nebraska's county seat and rural area banks.

In Lincoln, it was estimated that certificates of deposit comprise only about three per cent and savings accounts only about 10 per cent of total deposits. Average interest rates on certificates here is 1½ per cent.

District Schools Of Architecture Meet Saturday

Approximately 40 persons are expected to attend the 20th annual meeting of the Central States District Collegiate Schools of Architecture at the University of Nebraska Saturday.

The day-long meeting, to be held in Room 208, Architectural Hall, will feature discussion of curriculum problems.

Walter Taylor, educational director of the American Institute of Architects, will discuss "The Curriculum of Tomorrow" and conduct a question-and-answer session.

Frank McNett, regional director of A.I.A., will be featured speaker at the noon luncheon.

Other speakers will include: Emil Fischer, Kansas State College; Dwight E. Stevens, Oklahoma A & M; Wallard D. Strode, University of Kansas; Joseph R. Passonneau, Washington University, St. Louis; James P. Boggs, University of Oklahoma; Lawrence Enersen, Lincoln architect; Leonard Wolf, Iowa State College; Marvin Vanek of Grand Island, University of Nebraska student; Erik Jensen, University of Nebraska.

Hosts will be the University Department of Architecture and Extension Division.

New Evidence May Help In Arsonist Hunt

Additional evidence "that may assist" in the solution of the temporary building fire at the University of Nebraska Saturday has been uncovered by Lincoln Fire investigators.

Further information was not divulged by authorities investigating a series of weekend fires, although it was suspected that the new evidence was something of a material nature found at the scene of the campus blaze.

Sergeant John Furrow of the University police said that "the new lead" looked as if it might prove "very helpful" in identifying the person who set the fire in the frame building at 14th and Vine.

Meanwhile, a total of six phone calls had been received by Police Captain Paul Beave in connection with "suspicious" persons who may have been affiliated with the arson cases.

"In our recent series of fires," Fire Chief Paul Feaster reported, "the loss was held to a minimum due to the promptness that alarms were transmitted to the Fire Department."

He singled out the vigilance of citizens for special praise, cautioning that "added vigilance" is needed until the person responsible for the fires is apprehended.

Anyone observing anything unusual, he continued, is urged to notify the police or fire department officials immediately.

City Charter

(Continued from Page One.)

by the Council to administer programs and functions. The proposal states, however, that no such board, commission or authority which is assigned responsibility for the control or management of property, facilities, equipment, or finances shall be established without voter approval.

Added Departments

The committee also approved a provision allowing the Council, by ordinance, to create additional departments.

One proposal was killed. This was the proposal giving the city authority to defer water and sewer assessments against agricultural real property that is rural in character.

Other proposals approved included assigning of functions and programs to the immediate office of the mayor or any of the departments established in the charter. Internal organization of departments is to be determined by the mayor in consultation with department heads. And the mayor is given authority to create advisory committees and appoint the members thereof, such committees to exist no longer than one year and members to receive no pay.

Also approved was a provision calling for the creation of sidewalk districts the same as paving districts levying special assessments against the abutting property, paying sidewalk contractors in the same way as paving contractors.

NU 'Psychologists' To Conduct Clinic At Grand Island

An Educational Psychological Clinic at Grand Island Tuesday will be conducted by six faculty members and seven graduate students from the University of Nebraska Department of Educational Psychology and Measurements.

They will interview and test students in the Grand Island Public Schools.

In addition to serving the school, the clinic is designed primarily to give experience to graduate students of advanced standing, according to Dr. M. S. Hickey, director of the clinic.

Taking part will be Dr. D. A. Worcester, professor; Dr. Howard Tempero, associate professor; Dr. Gordon Henley, assistant professor; Joe Sadnavitch and Mrs. Roy Campbell, instructors; Mrs. George Morris Jr., Counseling Service psychometrist; John Ivanhoff of Lincoln, Michael Hirt of Des Moines, Ia., Michael Evans of York, John Bailey of Lincoln, Emily Reuwsaat of Lincoln, Mrs. Gourie Mukherjee of India, and Robert Wagner of Lincoln, graduate students.

Flights To Resume

CAIRO (AP)—Trans World Airlines announced it will resume four flights weekly into Cairo Dec. 11. TWA flights were suspended Oct. 29 after the Israeli attack on Egypt.

DRUG MISUSED; 20 CHILDREN DIE

BELGRADE, Yugoslavia (AP)—Twenty children have died in the last five days as a result of "inexpert" handling of streptomycin in the children's hospital at Skopje, in Macedonia, Tanjug, the official news agency said Monday.

Thirteen others—all under 12—are in critical condition with little hope of life.

Navy Won't Order Reservists Back For Tanker Duty

WASHINGTON (AP)—The Navy said Monday some reservists would find opportunity for active duty aboard the 13 Navy tankers being put back into commission.

However, a spokesman said the Navy has no intention of ordering any reservist back to active duty for service on the tankers unless he requests duty.

The Navy announced some time ago that the tankers were being brought out of the inactive fleet to meet increased requirements for oil carriers in the active fleet.

LeMay Says U.S. Would Be Damaged

WASHINGTON (AP)—Gen. Curtis E. LeMay, chief of the Strategic Air Command, said Monday night the United States could win a general war with Russia now, but that this country would suffer "serious damage."

"And," LeMay added, "I feel that unless we continue to improve the combat capacity, readiness, and security of air power, we will be still more vulnerable to still greater damage by the Soviet long-range air arm five years hence."

In presenting this assessment of the relative strength of the two countries, in an address for the faculty and student body of Georgetown University, LeMay said he would have predicted five years ago that "we could win a war with the Soviets without suffering serious damage to the country."

LeMay said that unless his Strategic Air Command possesses a

Rites Set Today For 10 Airmen

MERCED, Calif. (AP)—Interfaith memorial services will be held Tuesday at Castle Air Force Base chapel for the 10 crew members killed when a B-52 Stratofortress crashed near the base Friday night.

Friday's accident was the third for the B-52. All were from Castle AFB. Nineteen men have lost their lives in them since last February.

Quake Recorded

PASADENA, Calif. (AP)—California Institute of Technology reported it recorded a moderately strong earthquake, probably in the vicinity of Dutch Harbor, Alaska.

relative margin of superiority over the Soviet long-range air force and the Soviet continental air defense system it cannot be considered an effective deterrent force.

Then he added: "Despite recent Soviet gains in aircraft and weapons, technology and production, it is my considered judgment that SAC—now—possesses this relative margin of superiority."

Britain Takes Economic Action To Save Pound Sterling Value

... Ravages Of Egypt Venture Cited

LONDON (AP)—The British government began arming on the economic front Monday night for a battle to save the value of the pound sterling from the ravages of the military venture into Egypt. The multimillion dollar cost of the Suez attack has brought intense pressure on the pound, cornerstone of a worldwide money system known as the sterling area.

Government sources gave this breakdown of the known costs to Britain of the Suez attack, totaling from 330 to 420 million dollars:

1. Extra military spending, from 100 to 140 million dollars.
2. Loss of Mideast oil — not counting the higher cost of replacement oil from the Western Hemisphere — about 218 million dollars.

Blocked Canal

3. Extra cost of shipping British exports to Asia, and Middle East oil to Europe, because of the blocked Suez Canal, about 33 million.

These costs are figured for a six-month period ending next April. It is possible the Suez Canal may be back to normal before April and some of these costs can be shaved.

But there are the enormous invisible losses yet to be measured: The capital cost of repairing the Iraqi Petroleum Co.'s pumping stations in Syria that were sabotaged.

Britain's share of the cost of clearing the Suez Canal.

The general slump in economic activity throughout Britain and Western Europe as a result of the oil shortage.

Good Will

And there is the great cost that may be involved in the loss of British good will, prestige and influence in an area where Britain's investments run into countless millions.

There were authoritative reports that in November alone the British-led sterling area lost up to 200 million dollars in precious gold-dollar reserves.

This would cut the reserves to \$2,044,000,000, about the level some economists regard as the danger point for the pound.

The British treasury refused to comment on the reports. Informants said the main factors in the slump in reserves are:

The need to buy oil with dollars to replace that lost.

A slowdown on Britain's export drive.

A run on sterling balances held in London by Middle East oil sheiks.

More Serious

What worries the Eden government is that the drop in the reserves is bound to be more serious still in December unless extraordinary measures are taken.

Dollar spending is expected to be heavier. Additionally Britain is due Dec. 31 to meet two big loan repayments to the United States and Canada.

The British Cabinet has begun considering emergency measures

to check the pressure on the pound now valued at \$2.80. The measures include:

Possible waiver of the annual 130 million dollar instalments in interest and redemption of the American and Canadian dollar loans.

Purchase of 325 million dollars from the International Monetary Fund in the next 12 months.

Application to the fund for a multimillion dollar standby credit.

Commitment

UNITED NATIONS, N. Y. (AP)—Secretary General Dag Hammarskjold indicated that he understood Britain and France might get their forces out of Egypt as early as mid-December.

This view was advanced in a document containing a formal commitment of the British and French to get out of Egypt "without delay."

Hammarskjold informed the 79-nation General Assembly that, acting on his understanding of British-French policy, he had instructed Maj. Gen. E. L. M. Burns, commander of the U.N. emergency force, to be ready to take over responsibilities in the Port Said area by the middle of the month.

The document also disclosed that Hammarskjold had made at least two important commitments regarding the Suez. In identical communications, the British and French U. N. delegates informed Hammarskjold they understood that:

1. "The secretary general accepts the responsibility for organizing the task of clearing the canal as expeditiously as possible."
2. "The secretary general will proceed as quickly as possible in the future with regard to the future regime of the canal on the basis of the six requirements set out in the Security Council resolution of 13 October."

Both Shooting Victims In Improved Condition

Mrs. Agnes Parker, 54, of 2731 Van Dorn and William Carlson, 26, of Route 2, Ceresco, were both reported "improved" at St. Elizabeth's Hospital early Tuesday morning.

The two were shot last Thursday in the local State Employment Office by a berserk job seeker.

Mrs. Parker was reported in fairly-good condition and Carlson was reported in good condition.

'Malicious'

ANKARA (AP)—Turkey's acting defense minister, Shemi Ergin, denied a Tass report that Turkish troops had been sent to Iraq. Ergin called the report "malicious."

The Soviet news agency broadcast a report that Turkey had sent two battalions to Iraq at the request of Iraqi Premier Nuri Said.

"There has been no such request and no troops were dispatched to Iraq," said Ergin.

The 'Board's' The Thing Here

Telephone operators are shown in action on the new switchboard that went into partial operation Monday at the Statehouse. Telephone company officials with Lincoln Telephone & Telegraph say all building offices are expected to be connected with the board by the end of the week, if not sooner. The universal number for all Statehouse office calls will be 7-5211, as shown in the new telephone books that went into distribution last week. Operators shown working the new board are, from left, Mrs. Alta Kelly, Mrs. Nellie Johnson, and Mrs. Esther Allen. Shown standing at the end is Mrs. Bernice Touzalin, chief operator. Telephone company officials say the new board will effect savings of around \$400 to \$500 a month. (Star Photo.)

Tot Found Dying Of Malnutrition

SAN DIEGO, Calif. (AP)—A bill collector found a baby dying in a one-room apartment with five other children Monday.

Herbert Genel, 2½ months old, was dead before police, notified by Fernando Montalvo, the bill collector, could dispatch an ambulance to the home.

Javier, a twin of the dead baby, was taken to County Hospital, reported ill from malnutrition.

Deputy Coroner Robert Creason said Herbert apparently died of malnutrition and pneumonia.

The mother, Mrs. Felicitas Genel, told police she had left the children to go to the county welfare department and repay some money she had been given for support of the family. Her husband, Elano, a meat packer, is a county tuberculosis patient.

Officers took custody of the other children for care.

TOMORROW'S BETTER ROADS WILL BE CONCRETE.

Christmas Seal - Drive Hits 45%

Christmas Seal sales reached \$9,229 Monday, or 45 per cent of the goal in the drive to reach a quota of \$20,500 by Christmas, according to Flavel Wright, president of the Lancaster County Tuberculosis Association.

Proceeds of the sale, sole support of the Association, will finance fifth and tenth grade tuberculin tests, chest X-rays for twelfth graders, school personnel, food handlers and the general public as well as education, patient services and research, Mr. Wright said.

While the sporting press pencils up the Olympic gallops here in Melbourne, they have completely overlooked your shellbacked correspondent who is setting up new records for a few laps around the oyster bar.

The longest oyster bar in the world is in Flinders street. I went through two dozen oysters in a matter of one minute seven seconds. On Sydney rock

POSTCARD

oysters I will take on all challenges.

"The oyster eating championship of Australia is held by Mr. Joe Barca," said the oyster man slicing open another dozen. "Will you have lemon or vinegar, sir?" "A little of both if you please. What was his time?" "The time allowed was one hour, sir. Mr. Joe Barca sat himself down comfortable like and began. Before the hour was out he had consumed 40 dozen. Previous to that sir, the championship was held by Mr. Harry Nolan, a timber worker by trade. His record was 31 dozen."

"That's only a dozen every two minutes. What was the matter . . . lost his appetite?"

"An oyster woman named May Downie ate 21 dozen and four. Will you have some more, sir?" "Keep opening them," I said. "Is there a prize?"

"For his sterling effort in behalf of the oyster Mr. Barca was awarded a silver oyster plate and 50 quid. He had a loose throat, Joe did. The oysters seemed to slide down with scarcely a gulp."

I think I could do better than that. I figure my oyster eating at about 50 dozen per hour. I could do better but I have to take time to put vinegar and pepper on them.

I have eaten oysters at Cummings in London. At the Bailey in Duke street in Dublin. I have put away my dozen of belons 00s at Maxims in Paris. And the oyster men at Bookbinders in Philadelphia weep with joy when I heave into the cradle of liberty.

I am a big man with the little Olympians on Fisherman's Wharf in San Francisco. And managed to chomp oyster crabs on Chartres street in New Orleans.

But I will state for the record, there is no oyster that can compare with the scalloped shell Sydney rock oyster.

This morning between snacks, I

did a little research on the Sydney rock oyster. He is an amazing bivalve. She is even more amazing. When love blooms among the oysters, the lady oyster goes first class. One million oyster eggs is considered a small family.

The little oysters drift around rather aimlessly until they hook onto something to grow on. The oyster men are helpful. They put out little cement-coated sticks. The oyster grabs hold of a stick and grows. When he grows to bite size they pull up the stick.

The oyster then visits the longest oyster bar in the world. Possibly wondering what in the world he is doing there. When I arrive, he finds out.

I was doing a little slide rule calculation this morning. It works out during the Olympics we will eat five million oysters.

We will eat them on the beaches, we will eat them in the streets and in the hills. We shall never surrender.

The only difficulty I find is pronouncing it. They seem to call them "eystuhs" here. Anybody from Brooklyn can tell what they really mean is ersters.

More Than 200 Register For Nebraska State Veterinarians' Convention

The 60th annual meeting of the Nebraska State Veterinary Medical Association opened in Lincoln Monday with more than 200 persons registered for the event.

Dr. O. H. Person of Wahoo, state senator for the 17th Legislative District, reported on the results of a Legislative Council study on poultry inspection which would apply chiefly to sanitation of poultry establishments.

Sen. Person said the proposed legislation which will come before the next session of the Legislature would not affect individual farmers "who dress just a few chickens for their neighbors."

The Wahoo veterinarian said the study group agreed that state inspection of poultry slaughtering and processing plants should be provided, not only for the benefit of the industry itself, but for protection of public health as well.

Meat Inspection

He reported the Council study also discussed permissive legislation relative to state meat inspection for restaurants and hotels over the state. He said the inspection program would be paid for by those businesses which desire it and at no cost to the taxpayers.

Another subject discussed by the legislative committee was an amendment to the state sale ring law which would provide that all hogs sold in a sale ring must be immunized against cholera.

Sen. Person said this would help control hog cholera and close loopholes which now permit hogs sold in sale rings to go without immunization.

State Veterinarian Dr. J. L. George told the group that livestock conditions in Nebraska are normal with no outbreaks or threatened outbreaks of disease.

"We are making very good progress toward control and eradication of brucellosis," Dr. George stated, "and our goal is complete certification of the state by July, 1960 as brucellosis-free."

No direct effects of the drought have been noticed on livestock thus far, Dr. George said, but there has been considerable disposing of livestock because of short feed conditions. He said a sustained drought of several months duration could lead to vitamin A deficiencies and rickets in livestock if it proved impossible to get good feed in the state.

Other Speakers

Other speakers at the opening session were Dr. W. T. Spencer, Dr. C. B. Bjornson, Dr. G. H. Leenerts, Dr. N. W. Kruse, Dr. D. E. Werring, and Dr. E. C. Jones.

Dr. W. J. Simic of Beatrice, president of the Association, presided at the session.

Tuesday's meeting will feature addresses by L. D. Ferguson of Michigan State College, Frank R. Booth of Elkhart, Ind., Eugene Ingmand of Red Oak, Ia., and John L. Wilson, Lincoln attorney.

A noon luncheon and panel discussion will follow election of officers.

Brig. Gen. W. O. Kester, president of the American Veterinary Medical Association, will give an AVMA report to end the afternoon session.

Social activities will be capped by the annual banquet Tuesday night.

Top-Drawer Chorus

TOKYO (AP) — Japanese radio listeners heard a most distinguished chorus. Prime Minister Ichiro Hatoyama and 13 members of his family—wife, children and grandchildren—recorded Japanese folk songs for broadcast on the new "Home Song Hour."

Nothing finer in American taste

Career Woman—1956

It has been a few years since Dorothy Doty O'Reilly was on the Nebraska campus, and since her coed days she has ventured into a professional field or two—and among them is advertising.

Mrs. O'Reilly, the daughter of

Lennox Club

Mrs. J. C. Nelson was hostess at her home Wednesday afternoon to the members of the Lennox Club. During the short business meeting, Mrs. H. J. Nelson was introduced as a new member of the club.

A Christmas party and gift exchange were held after which refreshments were served by the hostess.

Mr. and Mrs. W. B. Doty, 1651 Pawnee St. now is in Chicago where she heads the Chicago office of the Compton Advertising Agency.

During her days on the Nebraska campus—and for some time after, Mrs. O'Reilly was radio editor and a member of the editorial staff of The Lincoln Star.

To Celebrate Founders Day

The collegiate and alumnae chapters of Sigma Alpha Iota, national music sorority, will celebrate the founding of the sorority on Tuesday evening when the members hold a banquet at the Student Union. Mrs. Leroy Munson is chairman of the commit-

tee. WHETHER you like the idea or not—Christmas is just exactly three weeks from today, but the Christmas parties—are arriving before then.

One of the early festive affairs that adds zest to the approaching holiday season is the 10:30 o'clock Christmas Coffee for which Mrs. Robert Durrie and Mrs. Richard Knudsen have issued invitations. The party is planned for Friday morning, Dec. 14.

THE STAR IN SUBURBIA

There seems to be a great variety of news this morning as we visit our Eastridge neighbors. We've learned of a baby shower, a new arrival in one of the Eastridge families, a bit of traveling, and a pre-nuptial courtesy. And since we have such an abundance of Christmas news with only three weeks before the holiday is here, we had better get busy relating some of the plans that neighborhood families are making.

There was really cause for celebrating on Thanksgiving day in the James Kilkelly household, for that was the day that young Jamie Lynn Kilkelly put in his appearance at Bryan Memorial Hospital. Heartiest congratulations to the proud parents.

Speaking of babies, we're reminded of a stork shower which will be given in honor of Mrs. Howard Rose this Friday afternoon. Hostess for the party will be Mrs. Morris Siegel, and the

guests will present the honoree with a group gift. AND on the following week-end—Saturday evening, Dec. 22—the members of a feminine bridge eightsome and their husbands will have their annual Christmas party at the home of Mr. and Mrs. James Critchfield.

In the dinner group, in addition to Mr. and Mrs. Critchfield, will be Mr. and Mrs. George P. Abel, Jr., Mr. and Mrs. Irvin Rosewell, Mr. and Mrs. James Pittenger, Mr. and Mrs. William Golding, Mr. and Mrs. John Morrow, Mr. and

Mrs. John Kos and Dr. and Mrs. Paul Peterson.

THEN WE learned of some Christmas travelers—Mr. and Mrs. Earl Cline and Mrs. Edna DePutron, for instance, who will leave a few days before Christmas for Muncie, Ind., where they will be the holiday guests of Mrs. DePutron's son-in-law and daughter, Mr. and Mrs. William C. Baldwin.

AND TO Sidney for the holidays

mother, Mrs. Herbert Newman of Chicago, Ill.

New residents in the Eastborough area are Mr. and Mrs. Dorsey E. Wiseman, who have been in their new home at 925 Ferndale Rd. since Friday, Nov. 25. Mr. and Mrs. Wiseman have two children, Dorsey Jr. and Jean Ann.

Now for a bit of Christmas news. Arriving this week is Mrs. Emma Courtney of Mattoon, Ill., who will be visiting her son and daughter-in-law, Capt. and Mrs. Richard Courtney, through the Christmas holidays.

Maj. and Mrs. Charles Vollmer are getting ready to welcome holiday guests, who will be arriving Dec. 22, which isn't very far off if you'll glance at your calendar. The visitors will be Maj. Vollmer's mother, Mrs. James D. Vollmer, and his brother-in-law and sister, Maj. and Mrs. C. L. Gregory and Terry Lane.

Madam Chairman

Christmas Comes To Emerald

We saw no sign of the jolly little man in the red suit—the fellow with the long white beard, but we know that he has at least paid his respects in Emerald. It may seem a bit early for a visit to St. Nick, but it so happened that the Emerald Homemakers Club held its annual Christmas party for the members of the club and

their families, and certainly the small-fry in the families expected a remembrance from Santa Claus.

In the picture, left to right, are Rolland Pickel, Mrs. Pickel, Mrs. Robert Pickel, Mrs. L. J. Hohnstein, Miss Margaret Crow, Mr. Hohnstein, Henry Berg, Mrs. Berg, Mrs. Edwin Lostroh, Mr. Lostroh, Alfred Meyer, Lynette

Piening—who had to stand on a chair to receive her gift: Robert Pickel, Nancy Pickel, Mrs. Alfred Meyer, Marilyn Meyer, Mrs. Adolph Piening, Luella Lostroh, Leon Meyer and Burdette Piening.

HARDY FURNITURE CO.

The Town's In A Holiday Mood

will go Mr. and Mrs. William R. Wright and their son-in-law and daughter, Mr. and Mrs. Harold Salisbury—plus the two Salisbury daughters, Karen and Susie. The members of the family will be the guests of Mr. and Mrs. Wright's son-in-law and daughter, Dr. and Mrs. Max Cory.

ARRIVING in ample time to have plenty of holiday fun will be Mrs. J. G. Benda of Wymore who will spend the holiday period with her son-in-law and daughter, Mr. and Mrs. Sidney Anderson.

THERE IS, of course, much more to be said about guests, parties and Christmas in general, but at the moment we have other things to mention—

We learned that Mrs. Darrell Gunn of Mission, Kan. (the former Margaret Taylor) arrived in Lincoln on Monday to remain until Wednesday as the house guest of her cousin, Mrs. Howard H. Cather, Jr., and Mr. Cather—and to visit her sister, Mrs. Paul Maxwell.

On Monday Mrs. Gunn was a guest at the Lancaster County Medical Auxiliary luncheon, and today, accompanied by Mrs. Cather, she will go to Omaha to be the luncheon guest of Mrs. Herman Rohrig.

Complimenting the visitor on Wednesday will be Mrs.

Cather who has invited guests for a morning coffee at her home.

WE'RE sure you will be interested in the news that Mr. and Mrs. Owen Beach (Mary Belle Baldwin) and their daughter, Kimberly (Kandy—for short) are returning to Lincoln to reside. Mrs. Beach and young Kandy, by the way, already have arrived from Enid, Okla., and are the guests of Mrs. Beach's parents, Mr. and Mrs. Glenn Baldwin, and will be joined here at the week-end by Mr. Beach who, on Friday, will be separated from the army in which he has been serving as a first lieutenant.

BACK TO Christmas for a moment—Hear that Dan and Brad Cook will be winging eastward on Dec. 17—Messrs. Cook and Cook are attending Leland Stanford University, Palo Alto, Calif., and will spend their holiday vacation with their

parents, Mr. and Mrs. George B. Cook.

OUR morning mail revealed that some of the citizenry has been holidaying in Jamaica—One communique tells us that Clifford D. Spangler spent some time there—and a second flash from there contained the information that Mr. and Mrs. A. R. Marquardt were on Jamaica's guest list.

SOMEONE told us that Mrs. J. Kenneth Cozier of Cleveland, O., is arriving today to remain until Friday as the guest of her mother, Mrs. C. B. Towle. Joining her mother and sister on Thursday will be Mrs. T. T. Varney, Jr., of Broken Bow.

AND BACK in town on Wednesday evening will be Mrs. David Jacobs who is returning from a Caribbean cruise. Mrs. Jacobs was accompanied on the trip by her sister, Miss Maxine Frosh of Albany, N.Y.

We Hear That

Mr. and Mrs. Robert B. Avner of El Paso, Tex., are the parents of a son, Malcolm Eugene, who was born on Friday, Nov. 9, at Southwestern General Hospital in El Paso. The baby's paternal grandparents are Mr. and Mrs. Sydney S. Mandel of El Paso.

Mr. and Mrs. C. F. Wittstruck will be leaving Lincoln on Tuesday to visit their son-in-law and daughter, Mr. and Mrs. L. J. Quinn, in Salinas, Calif., over the Christmas holidays.

Bride At December Wedding

MRS. LLOYD L. HORST

The marriage of Miss Glenda Marlene Gerrard, daughter of the Rev. and Mrs. P. D. Gerrard, to Lloyd L. Horst, son of Mr. and Mrs. Jacob Horst of Jamestown, N.D., took place on Monday evening, Dec. 3, in the Central Union Conference parlors. The bride's father solemnized the 8 o'clock ceremony before a background of lighted candles against a screen of greenery, and the wedding music was played by Miss Rosella Reiner, organist. Miss Reiner also accompanied Donald Runyan, the vocal soloist.

The attendants, Mrs. Dale Shepherd who was the matron of honor and who appeared in red; and the maid of honor, Miss Carmen Suka of Brady, who was in the green tone, wore identically styled velvet frocks. Their costumes were completed with frock-toned cloaks ornamented with sequins, and each carried a colonial bouquet of white pom-poms. Lighting the candles were Kathie and Norman Gerrard.

Melvin Schultz of Jamestown, N.D. served Mr. Horst as best man, and Elroy Oxt, also of

Jamestown, seated the guests.

For her wedding the bride chose a gown of lace and tulle. Under a bolero jacket of lace, designed with a stand-up collar and bracelet-length sleeves, the strapless bodice of tulle was snugly fitted above the wide waist-length skirt fashioned of sequin-dusted shirred bands of tulle. Her shoulder-length veil of French lace was held to the head with a cap of tulle caught with clusters of rosebuds, and she carried a star-shaped bouquet of white French carnations.

Following the reception Mr. Horst and his bride left for a honeymoon trip to Colorado after which they will return to Lincoln where they will reside at 5040 Locust. For traveling Mrs. Horst wore a frock in the off-white shade, with dusty pink topper and accessories.

Mr. Horst is a student at Union College.

PTA Board Will Meet

The executive board of Park PTA will meet on Friday in room 116 of the school. Following the 1:15 o'clock business meeting, a Christmas gift exchange will be held.

Yule Program

Members of La Sertoma will meet on Wednesday evening at 7:45 o'clock at the home of Mrs. Francis Minard. The program will have a Christmas theme and will be presented by members of the organization.

You are cordially invited to attend an open house at the new IBM Sales and Service offices

First Step Taken To Implement Minimum Housing

By BILL DOBLER
Star Staff Writer

The first step has been taken on implementation of at least a part of the new minimum standards housing ordinance.

The ordinance governing the regulation of boarding and rooming houses is proposed for amendment to conform to the minimum standards housing ordinance before a permit for their operation can be issued.

Such an amendment was introduced to the City Council for first reading Monday. The more stringent features of the housing ordinance affecting rooming and boarding houses are non-retroactive and thus not applicable to existing structures.

However, certain sections relating to health and sanitation do apply to existing structures.

Other ordinance action:

Introduced

Ordinance permitting a banjo sign of 50 square feet in size. Present limit is 30 square feet.

Vacation of 67th. Benton to the alley between Seward and Collax.

Vacation of 68th. Fremont to the alley between Seward and Collax.

Change in zoning from restricted commercial to local business at 37th and O.

Change in zoning from residential to local business at 48th and Francis.

Sewer district in X, 42 to 44th and in 4th. W to X.

Sewer district in Vine, 40th to 42nd and 42nd. Vine to W.

Water district in 30th. Sheridan to Calvert and Calvert 35th to 37th.

Water district in X, 42nd to 44th and 44th. W to X.

City Hall Traffic Safety Sign To Be Put Up Again

The traffic safety sign formerly seen on the City Hall grounds at 10th and O will soon be restored to its old position.

The sign was taken down several years ago, during the early part of the term of former mayor, Clark Jeary. The City Council approved erection of a new and smaller sign at the request of the Lincoln-Lancaster Safety Council.

The new sign, showing the number of consecutive days Lincoln has gone without a traffic accident or fatality, will measure six by 12 feet.

Storm Sewer Bid Of \$43,189 OK'd By City Council

The City Council has approved the \$43,189 bid of Dougherty Construction Co. for building of a storm sewer in Fremont from 56th to 63rd.

Another smaller storm sewer project, from 22nd and F to Randolph by-pass, went to Dobson and Robinson Construction Co. for \$2,066.

A \$75,167 bid by the U.S. Pipe and Foundry Co. of Kansas City, Mo., was approved for furnishing cast iron water pipe and fittings for the Water Department.

Also approved was a \$54,500 estimate for the final major contract for work at the Ashland water treatment plant. The project calls for outside electrical work and controls.

A \$15,500 estimate was approved for an overflow outlet for the filter plant drain at the Ashland plant.

Beer License Suspended By Council For Week

The City Council has suspended for one week the on and off-sale license held by Herman Dinges at 1546 O.

Before the Council, Dinges entered a plea of no objection to charges of drinking beer while operating his tavern. The suspension will be in force from Dec. 10 to 17.

\$6,000 For Auditorium Equipment Is Approved

Estimates totaling \$6,000 for the purchase of equipment for the Pershing Memorial Auditorium have been approved by the City Council.

One \$3,000 estimate covers the cost of a floor scrubbing machine and vacuum cleaner.

Fee Increased

The City Council has approved a contract with the Humane Society, increasing from \$100 to \$150 a month the fee paid by the city for removal of dead animals by the Society.

Power Production Limited By West's Need For Water

COLUMBUS, Neb. (AP)—The need for refilling water storage capacity in western Nebraska has seriously limited power production in the area, the Nebraska Public Power System reported.

The Platte Valley Public Power and Irrigation District is generating only minimum quantities of power and is delivering the Central Nebraska Public Power and Irrigation District about two-thirds of its established minimum output, NPPS said.

Like Father, Like Daughter, Like . . .

Dr. Freeman B. Decker, state commissioner of education, held informal class Monday in his Statehouse office with Teacher, Mrs. Karen Harvey, Dr. Decker's daughter, showing off crayon drawings of her pupils. The students, from the first grade at Pershing School, where Mrs.

Harvey instructs, are Bonnie Seick, Sandra Kiener, John Jungers, and Dianne Matthews. The occasion of the capitol visit was a study of the building by the students beforehand. The visit to Dr. Decker's office was something special tossed in.

(Star Photo.)

PUT AWAY THAT GEIGER GADGET —AIN'T ANY YEW-RANIUM HERE

Backyard uranium prospectors in Nebraska might as well put away their Geiger counters.

The rich uranium strikes which have occurred in Colorado in the past several years, are not in the future for this state, in the opinion of Dr. Hobart E. Stocking, chief of the Geologic Branch of the Colorado Plateau Area, for the Atomic Energy Commission, who was a guest speaker at the University of Nebraska Monday evening.

Dr. Stocking said that while some of the shales of western Nebraska do carry uranium, it is not of commercial quality, although similar formations in Wyoming and the Dakotas do carry commercial uranium.

Easy Finds All Made

The Colorado Plateau and the western Rockies have the richest deposits in this area, he said, but added that, "All the easy finds of uranium in the Colorado area have been made—they were all right at the surface."

As far as future needs of the

United States are concerned, Dr. Stocking explained that as uranium is a very long enduring fuel, the present known supply should be sufficient for the country's needs for the foreseeable future.

At present, he explained, most of the uranium is used either for the production of atomic weapons, or for experimental reactors. Uranium also is used in medicine and plant research as a tracer material.

Plenty Left

Dr. Stocking explained that at the present rate of consumption, these uses would still leave plenty of uranium for the development of an atomic power set-up.

The Geological Bureau of the Atomic Energy Commission, he said, is mainly concerned with the finding and development of uranium deposits.

He has done geological work in Africa as well as throughout the United States. From 1945 to 1946 he was a State Department visiting professor at the University of Costa Rica.

NU Charity Drive Over \$7,000 Mark

More than \$7,000 has been collected to date during the 1956 All University Fund drive at the University of Nebraska. This is \$1,000 above the total reported at this time last year by AUF, the campus "community chest" organization.

Proceeds from the AUF Auction to be held Wednesday evening will go into the fund. More than \$3,000 was received at last year's auction.

Money collected during the current drive will be distributed among five charities selected by a student poll last spring.

Twenty-five per cent of the fund

will be given to World University Service, an organization which gives aid to needy college students in other nations. United Cerebral Palsy, the American Cancer Society and the Lincoln Community Chest each will receive 20 per cent. Ten per cent will be given to the Lancaster Association for Retarded Children.

AUF is the only organization allowed to solicit funds for charity on the University campus.

Executive officers of the organization are Jeanne Elliott, Scottsbluff, president; Beth Keenan, Kearney, and Sam Jensen, Grand

Island, vice presidents; Ben Belmont, Omaha, secretary; Art Weaver, Lincoln, treasurer.

Change To Aldrich Road Is Approved

An ordinance has passed the City Council on third and final reading to change the name of 52nd between A and Valley Rd. to Aldrich Rd.

The new name is in memory of the late Mrs. Bess Streeter Aldrich, well known Lincoln author who formerly lived along the new Aldrich Rd. Residents of the neighborhood had requested the change.

Also passed on third and final reading was an ordinance permitting the shooting of firearms and related weapons in shooting galleries and archeries.

by: CLARK McCABE

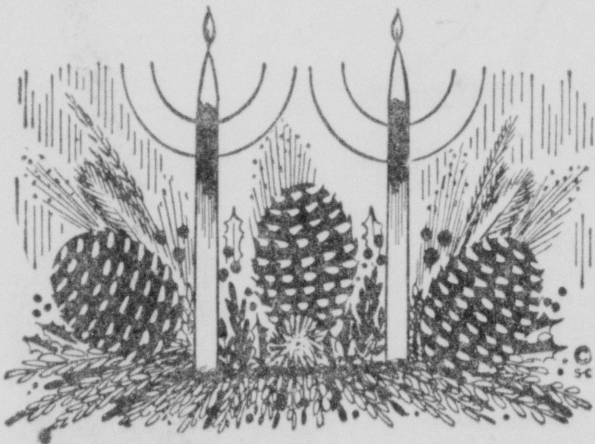

Composer Kurt Weill, once said that there is no such thing as "classical" and "popular" music — "there is only good bad music."

Weill, it seems to me, was in a particularly good position to make such a statement. His music bridged the gap quite successfully ever wrote "bad music." Probably because he understood the difference.

How are we to understand the difference. All of us, of course, "know what we like." Beyond that, we sometimes rely on professional critics and musicians to lead us their highly educated ears. But in the long run, time is the only sure test.

Time proves that good music remains popular, and that its popularity grows in proportion with its merit. Mozart, probably THE symbol of pure "classical" music, is undoubtedly more popular today than ever before—which is proof enough (if proof were necessary) that he wrote good music. Stephen Foster wrote "popular" music; a lot of it is still popular a hundred years later. Does that make Foster "classical"? Of course not it makes him "good music."

New or old, "classical" or "popular," good music requires a good instrument. Otherwise neither the performer nor the listener can get the most out of music. Come see our beautiful selection of fine pianos and organs . . . and make this a musical Christmas . . .

H-Study Produces 2 Million Degree Temperature

By FRANK CAREY
WASHINGTON (AP)—Navy scientists were reported Monday to have produced laboratory temperatures of at least two million degrees Fahrenheit—the highest yet reported from an American laboratory. Developers of the technique said it "might have possible use in the quest for harnessing fusion (H-

bomb) power for peaceful purposes." They declined to comment, however, as to whether they believed the temperatures they have achieved are indeed high enough to cope with one of the two major problems in connection with efforts to duplicate—under controlled

conditions—the titanic reaction which takes place in the H-bomb itself. One of these problems is to produce a temperature high enough to make hydrogen materials "fuse," and thereby release atomic energy. The other is to devise means of "containing" the materials in a reaction vessel at such

high temperatures—that is, without vaporizing the walls of the chamber itself. The Atomic Energy Commission has estimated that a temperature of "several hundred million degrees" would be necessary to trigger a fusion-power reaction—and that there would remain the problem of insulating the walls of the reaction chamber. However, a scientist at AEC's Brookhaven, N.Y. laboratory—Dr. Don Hughes—said last spring that a temperature of a million degrees "is almost high enough for the fusion reaction to take place."

Hughes made his statement in commenting on a report by the Russians who declared that in their own quest to harness the H-bomb reaction for peaceful purposes, they had achieved laboratory temperatures of "about a million degrees."

Scientists ordinarily discuss extremely high temperatures in terms of the Kelvin scale. A million degrees on that scale would be equivalent, officials said, to two million Fahrenheit.

Scientists of the radiation division of the Naval Research Laboratory said a technical report on their technique would be made next week at a meeting of the American Nuclear Society in Washington.

Mrs. Jordan Rites Set Wednesday

Funeral services for Mrs. Theodora J. Jordan, 58, of 3046 N. will be held 3 p.m. Wednesday at Wadlows, with H. A. Wendland officiating.

Rebecca Lodge services will be held at the chapel. Burial will be in Alvo, Neb.

Mrs. Jordan died Sunday in Denver, Colo., where she had been staying for about one week.

A native of La Junta, Colo., she had been a Lincoln resident since 1940, coming here from Alvo, Neb. She was a member of Rebecca Lodge.

Surviving are two daughters, Mrs. Charles Whitlock of Denver, Mrs. Vincent Jennings of Woodland Hills, Calif.; one son, Paul Jordan of Lincoln; sisters, Mrs. Herbert W. Legg of Elkhart, Kan., Mrs. Orville Thompson of Tulsa, Okla.; brothers, Richard S. Cook of Puyallup, Wash., Walter W. Cook of North Hollywood, Calif., Hugh Douglas Cook of San Leandro, Calif.; and one grandchild.

Young Pleads No Contest As Accessory

... In Larceny Case

George Young, 30, of Bakersfield, Calif., pleaded no contest to an accessory after the fact charge in Lancaster District Court in connection with the larceny of "over \$100" from a Lincoln woman last Sept. 13.

After Young's plea, the prosecuting attorney dismissed burglary and grand larceny charges on which he was to have been tried at this jury session.

Young admitted in court to concealing the knowledge that Homer Keeney, 24, of Buffalo, N.H., had committed the crime of grand larceny.

Keeney was convicted of grand larceny in the alleged theft of some \$450 from Mrs. Hazel I. Kubat of 6343 Adams, but was acquitted by jury of a burglary charge in the case.

At Keeney's trial, Young testified he had driven Young to the Kubat home, but said he had no other knowledge of the incident, except that Keeney had wanted to visit "an old girl friend."

Keeney, who defended himself during trial, received a two-to-five-year Reformatory term for grand larceny.

On the accessory charge, Young faces maximum imprisonment of two years or a fine.

U.N. Ruling Asked

SINGAPORE (AP)—The Netherlands may take the dispute over Indonesia's repudiation of debts to the Dutch government before the United Nations. D. G. E. Middleburg, until recently Dutch consul general in Singapore, said: "We cannot even agree with Indonesia the amount they owe us. They insist on saying they owe us more than they really do and then refuse to pay it."

Cravens Estate Taxed At \$2,194

The estate of David J. Cravens, Lincoln resident who died Aug. 3, 1955, has been assessed inheritance taxes of \$2,194.24 in Lancaster County Court.

Mr. Cravens, retired state agent for the Kansas City Life Insurance Co., left an estate valued at \$506,224.08.

Half of the estate was left to his widow, Elizabeth A., and the remainder in trust. The trust provided for life incomes to his wife and designated nieces and nephews with the remainder to the Shrine Hospitals for Crippled Children.

Of the assessed taxes, \$1,860.81 was assessed against encroach-

able interest into the trust for the benefit of his wife, but payment was deferred and bond was posted by the estate.

AK-SAR-BEN INVESTS IN FARM YOUTH

The future prosperity of this area depends upon farmers and ranchers who are well trained in agricultural sciences. FFA and 4-H programs teach good farming methods and inspire youngsters to acquire an adequate education for a productive career in agriculture. Ak-Sar-Ben contributes thousands of dollars each year to make 4-H and FFA programs more effective, including an appropriation of \$25,000 for special premiums at Nebraska County Fairs.

It costs Ak-Sar-Ben nearly \$40,000 annually to stage its Live Stock Show and world's largest 4-H Beef Show. Ak-Sar-Ben considers this an investment in the future of the Midwest, because each year more than 1,000 young exhibitors learn valuable lessons in this great competition.

Ak-Sar-Ben has presented more than 10,000 plaques and pins to 4-H leaders, honoring these unselfish volunteers for their many years of service.

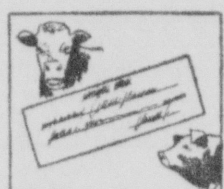

Gold service keys are given each year to FFA instructors, and cash awards are presented to outstanding 4-H and FFA youngsters.

Thoroughbred racing provides the revenues to carry on these and many other beneficial programs.

FACTS ABOUT AK-SAR-BEN

One of the dramatic highlights of the FFA program is the annual selection of Star Farmers. Ak-Sar-Ben provides a handsome gold medal for each of the four regional Star Farmers selected in Nebraska. Ak-Sar-Ben is a major source of 4-H and FFA premium money at Nebraska County Fairs.

Ak-Sar-Ben presents substantial cash awards to FFA boys who excel in raising purebred cattle, hogs or sheep. Ak-Sar-Ben also provides funds for an annual small grains contest among 4-H and FFA members and recognizes winners with gold medals, all expense trips to Omaha, and a banquet.

Each year, schools to train the adult volunteer 4-H leaders are held in North Platte, Scottsbluff, Norfolk or Lincoln. With funds made possible by thoroughbred racing, Ak-Sar-Ben reimburses hundreds of these leaders for all of their expenses while attending these schools.

Hospital-Sponsored Formula

Help shrink, reduce, and soothe in minutes; really long-lasting comfort. TM Pile Cones are the only formula sponsored by world-famous hospital, Thornton-Minor. TM formula often helps put off surgery indefinitely. You'll like TM Suppositories still better because they're CREAM-WHITE—non-staining. Only \$1.50 at your druggist—ask for Thornton-Minor Suppositories today.

Romania Signs Aid Pact Keeping Soviet Soldiers On Her Soil

MOSCOW (AP) — Communist Romania went down the line for Kremlin policies Monday night in a new aid agreement that will keep Soviet soldiers on Romanian soil.

The aid includes a loan of 450,000 tons of wheat and 60,000 tons of fodder grain to offset a poor harvest, and equipment and credit to expand Romania's chemical and oil industries. Payment for certain other Soviet goods already sold to Romania was deferred from 1957 to 1959.

Premier Nikolai Bulganin and Romanian Premier Chivu Stoica signed a 10½-page joint com-

munique that read like a reiteration of known Kremlin policies on Communist and international affairs.

After the signing, Stoica joined his hosts in a Kremlin diplomatic reception celebrating conclusion of the agreement. Diplomats of the United States, Britain, France and Canada stayed home.

Disarmament

Hungary, the Middle East, and world disarmament were among topics touched on in the Stoica-Bulganin communique.

The Romanians agreed to the continued stationing of Soviet troops in Romania, subject only to final negotiations between the two

countries and other members of the eight-nation Warsaw Pact.

They also agreed to provide Russia "such materials as are necessary for its national economy" in return for Soviet iron ore, coke, pipe and technical assistance intended to beef up their chemical and oil industries. Presumably this payment may be made in oil, which Romania is producing at a rate of nearly 11 million tons a year.

The communique expressed agreement that Russia was just doing its "international duty to the working people of Hungary" in using Soviet troops to combat what it called "an attempt to destroy the Socialist system and

create in Hungary a hotbed of fascism threatening peace in Europe." It was agreed that the Soviet intervention was fully justified.

The British, French and Israeli attacks on Egypt were condemned with a warning that, so long as "the aggressor forces" remain in the Middle East, "it cannot be considered the danger of military conflict is eliminated."

The communique demanded punishment for the "imperialist aggressors" and compensation for damages they caused Egypt.

Support for disarmament on the Soviet pattern, abolition of both the North Atlantic and Warsaw al-

liances and seating of Communist China in the United Nations also was voiced in the communique.

It said the Soviet-Romanian meetings had materially strengthened relations between the two countries, helped to consolidate relations within the Socialist (Communist) camp and assisted the cause of coexistence and peace throughout the world.

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you. (Distributed by King Features, Inc.)

BAERING DOWN ON THE NEWS By Arthur 'Bugs' Boer

Internal Revenue reservists found a working still down at Mount Vernon and figure George boiled his own.

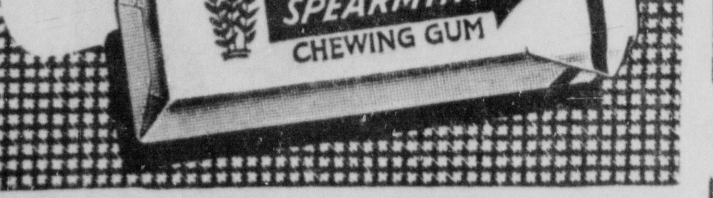

It's a copper and brass gizmo dated 1776 and had a lot to do with the Declaration of Independence.

Not having a Constitution 180 years ago, George didn't have to fear the amendments. And he wasn't a fellow to spit more cotton than he planted.

Jefferson's room service was a chute leading from the wine cellar. A servant loaded it and pulled it up on a cord.

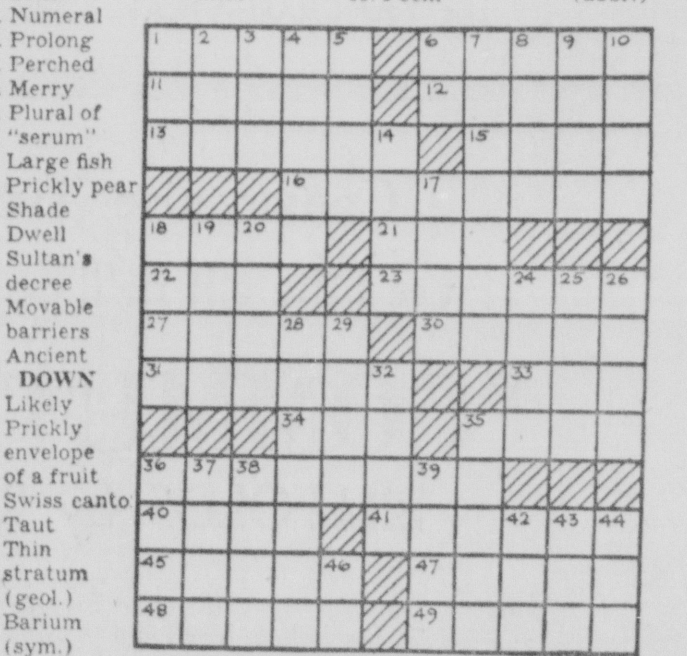

The revenuers aren't likely to go shooting around in the Virginia bottle-orchards. There are too many patriots who don't require ramrods when muzzle-loading.

The copper pipe was made in England and could have been surrendered by Cornwallis. It was in us, until 15 years ago when the revenuers surrounded the last pocket of resistance in Kicking Mule Hollow.

Eberspacher To Start For NWU Tonight

Tall Southwestern Team Invades

Bob Eberspacher, sophomore from Beaver Crossing, has won a starting lineup position for himself on the Nebraska Wesleyan University squad that meets Southwestern College Tuesday night at Lincoln.

Coach Irvin Peterson said he will send Eberspacher, a six foot, one and one-half inch forward, into a starting post as Wesleyan meets its second out of state foe. The Plainsmen dropped their opener Friday night to a strong Iowa Wesleyan team, 80-87.

Eberspacher teamed with Rod Felix, Geneva junior, to spark the Wesleyan rebounding game. Eberspacher also played a top floor game and pushed through nine points.

The Plainsmen again face a team with a height advantage on them when the Kansas come to town. The 12 men Coach Bob Hower will bring from Southwestern average 6-1, and he can field a team that will average over 6-3.

And Wesleyan will again have to stop a sky-scraping center in Southwestern's junior center, Ben Schmidt, 6-6. Gerald Gullop, sophomore forward at 6-4 is the next tallest Southwestern player.

Wesleyan plays its first Nebraska opponent of the season when they entertain the Dana College cagers in the Ira J. Taylor Gymnasium Saturday night, December 8.

'Shorties' Spark Plainsmen

Before the season started, Nebraska Wesleyan University basketball coach Irvin Peterson said he'd have to depend on a short, fast squad to carry the Plainsmen in their fight for a return to power in the Nebraska College Conference.

And he wasn't disappointed Friday night, even though the Plainsmen dropped their opener to a hot and tall Iowa Wesleyan team, 87-80.

Because the two shortest men on the Nebraska Wesleyan squad

came out as scoring leaders. They are Lowell Johnson, Pawnee City junior, who hit 21 against the Iowans, and Glen Reed, Waverly senior, who hit 17.

Reed stands 5-10 and Johnson is 5-9½.

Lefty Hixson, Brookings, S. D., "skyscraper" at an even six foot, was the next highest scorer with 10.

All three will be in the starting lineup Tuesday as Wesleyan tries for a comeback against Southwestern College of Winfield, Kansas, on the Wesleyan court.

—Fight Postponed—

Fullmer Claims Crown

NEW YORK (AP)—The middleweight championship fight between Sugar Ray Robinson and Gene Fullmer, scheduled for Dec. 12 at Madison Square Garden, was postponed until Jan. 2 Monday and Fullmer, through Manager Marv Jensen, promptly claimed the title by default.

The three-week delay was ordered after Robinson came down with a severe cold and brought a prompt reaction from Jensen, who said he would go before Chairman Julius Helfand of the New York State Athletic Commission Tuesday to claim the title from Sugar Ray.

Jensen, who negotiated and waited for nearly six months to get the bout for his challenger, suggested that "Sugar Ray probably got sick watching old man Archie Moore on television Friday night."

Jensen said either the Dec. 12 contract will be honored by a fight or it ought to be voided and a new split of the purse drawn up.

Under current terms, Robinson would receive 47½ per cent plus a big slice of the TV and radio receipts to 12½ per cent and no TV or radio swag for Fullmer, whose home is in West Jordan, Utah.

Faurot Begins Interviews For Missouri Job

COLUMBIA, Mo. (AP)—Don Faurot, director of athletics at the University of Missouri, Monday started interviews with four candidates for the Tiger head coaching job which Faurot abandoned after Missouri closed its season Saturday.

The four are Clay Cooper, Missouri freshman coach; Kenneth Knox, Southeast Missouri State coach; Volney Ashford, Missouri Valley College coach, and Robert Devaney, end coach at Michigan State.

All arranged to talk with Faurot, Dr. Elmer Ellis, president of the university, and the committee on intercollegiate athletics during the day. Other candidates will come here later this week for the same process, Faurot said.

Howard Paces OS

COLUMBUS, Ohio (AP)—Big Frank Howard, Ohio State's All-American candidate, poured in 29 points and swept both backboards here Monday night as the Buckeyes overwhelmed Pittsburgh, 100-69.

The Buckeyes grabbed their second victory of the basketball campaign.

Pitt's Bob Lazor scored 22 points to pace the losers.

City Basketball

RESULTS MONDAY

Iowa State Athletic Boss Steps Down

A M E S, Iowa (AP)—Louis E. Menze resigned Monday as athletic director and head of the physical education department at Iowa State College.

Menze asked the college athletic council to appoint a committee to recommend a successor not later than July 1, 1958. This left the way open for the council to appoint a new director immediately.

Under Iowa State College regulations governing deans and heads of departments, Menze was due to retire July 1, 1959.

The council Monday also accepted the resignations of head football coach Vince DiFrancesca and his staff.

Bob Lane Scores KO Over Kilgore

MIAMI, Fla. (AP)—Bobby Lane, rangy Kannapolis, N. C., light heavyweight, knocked out veteran Billy Kilgore of Miami, Monday night with a right to the chin in round four of a scheduled 10.

Lane weighed 169½ and Kilgore 174 for the Biscayne Arena bout. It was Kilgore's first listed knockout since 1952 when Willie Troy decked him in seven rounds.

'Bama Belts Foe

TUSCALOOSA, Ala. (AP)—Led by flashy little guard Jack Kubiszyn, Alabama opened its 1956-57 basketball campaign by defeating Jacksonville, Ala., State 102-56. Kubiszyn pumped in 24 points.

Tech Joins Court Race

The first big basketball day of the Nebraska high school season isn't until Friday, but several schools begin action Tuesday night.

Some smaller schools, with do not play football, have already begun play. Other schools join in tonight.

In one of the feature games, Omaha Tech journeys to Abraham Lincoln of Council Bluffs to become the first Class AA school in competition.

Nebraska City is at Auburn, Madison is at Columbus St. Bonaventure and Blair visits South Sioux City in other eastern Nebraska biggies.

In other highlights Morrill meets Minatare and Seward plays its tra-

ditional opener at Seward Concor-

dia. Two top C schools, Waverly and Chadron Prep, are in action. Waverly visits Weston and Chadron Prep is at Harrison.

Butler Nips Badgers

INDIANAPOLIS (AP)—Butler University inflicted Wisconsin's second straight defeat of the pre-Big Ten basketball campaign Monday night, 54-50, the same margin as Butler's victory over the Badgers last season.

Bob Litzow, 6-foot-3 senior Wisconsin forward, was game high scorer with 20 points, all on field goals. Forward Ted Guzek scored 18 points for Butler.

"It's even better than
'sweet-mash' bourbon"...

"Even smoother than
'sour-mash' bourbon"

The one and only

mellow-mash bourbon

Yellowstone

For over 100 years, people have been discovering something "new" in old Kentucky. It's a different bourbon—better, smoother, remarkably free of bite.

The reason? It has the best characteristics of sour-mash bourbon and sweet-mash bourbon. It's one step better—mellow-mash, the exclusive Yellowstone way of achieving full-bourbon flavor with light body.

People outside Kentucky are discovering this old favorite. Why don't you? Once you taste it, you'll know why it's called "the greatest American whiskey!"

State Teachers' Salaries Below National Average

Elementary Wages Set At \$3,968

WASHINGTON (AP)—The National Education Assn. said Monday an estimated 1,258,136 teachers are employed in public elementary and secondary schools but an additional 47,760 are needed to reduce oversized classes.

Of the total now employed, the NEA said, about 80,000 are on an emergency or substandard basis—that is, do not hold standard certificates.

The NEA said the number of teachers employed on emergency or substandard certificates only partly indicates the real shortage. A substantial part of the shortage is concealed by enlarging classes.

The estimated number of staff members in public elementary and secondary schools during the current school year and the estimated number of additional teachers are needed, respectively, by states, include:

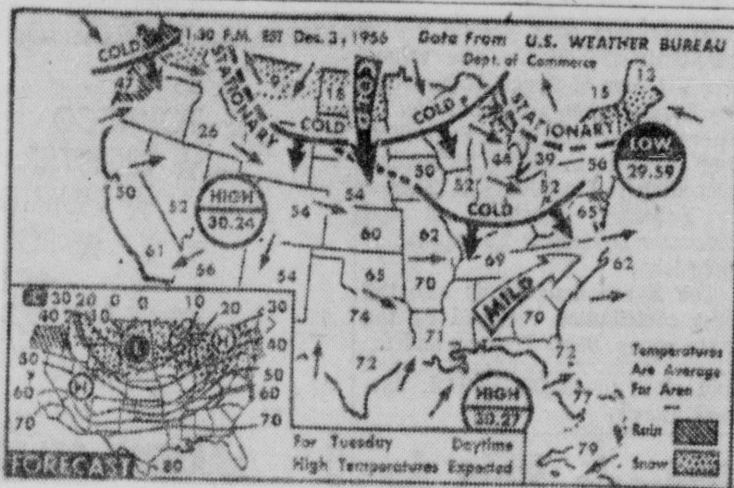

Nebraska, 131,900 and none.

The estimated average salary of classroom teachers in the elementary and secondary schools was \$4,200. Nebraska's average was \$3,968.

Imperial Lions Club To Mark 25th Year

IMPERIAL, Neb. — Plans are under way here for the 25th anniversary celebration of the Lions Club to be held Monday, Dec. 10.

Fred S. Martin of Minden, president of the district governor, will be the principal speaker.

Northern States Expect Moisture

Precipitation is expected Tuesday in all of the northern states except New England. Fair to partly cloudy skies will prevail elsewhere. It will continue cold or become colder in the north-

ern half of the U.S., and continue mild along the eastern seaboard and southeast sector. It will be cooler in New Mexico and Nevada and warmer in Utah and Oklahoma. (AP Wirephoto Map)

Hartington Banker Claims Corn Referendum Unhealthy, Fraud

HARTINGTON, Neb. (AP)—The corn referendum to be voted on Dec. 11 is "a bare faced fraud on the corn belt," according to V. E. Rossiter, president of the Bank of Hartington.

Neither of the alternative programs offered is healthy for the farmer or for rural communities, Rossiter said.

He called on farmers and rural businessmen to take the matter before their congressional representatives.

"The time has come for corn farmers and rural businessmen

everywhere to sit down with their representatives and senators for a little man-to-man discussion. Unless rural America wants to become a colonial extension of the United States," he said.

"If the corn farmer votes for Plan No. 1, he will be cutting his allotment corn acreage base 16 per cent below 1956, which will prevent most farmers from participating in the soil bank at the higher rate on corn acres," Rossiter declared. "He will be voting to reduce the average support price on corn from 74 per cent of parity in 1956 to 77 per cent of parity in 1957, and leave the 1958 and 1959 acreage allotments entirely to the discretion of the secretary of agriculture."

The said the second plan, in spite of its many disagreeable provisions, may be the better choice.

"Plan No. 2 would permit a more realistic 51 million acres of corn but force 15 per cent of the crop acres into the soil bank at the higher or lower rate, whichever the farmer chooses," he said.

"At the same time it would put into operation a three-year program which would take corn off the basic list, as well as to permit the secretary of agriculture to select the support prices in 1958 and 1959 between zero and 90 per cent of parity, and leave the farmer without any program whatsoever for the 1959 crop."

Two Fairbury Stores Suffer Fire Damage

Lincoln Star Special

FAIRBURY, Neb.—Cause of the flames damaging two business houses here Monday remains undetermined.

Extensively damaged and out of operation are Smitty's Pastry Shop and the Fairbury Book and Gift Shop where the blaze apparently started, according to Fire Chief George Mackay. The two places stand beside each other on Fairbury's main street.

No estimate on the loss to the two business firms is available. Both places suffered heavy smoke and water damage, Chief Mackay said.

Firemen battled the blaze about two and a half hours.

Christmas Candy Lost

About 100 pounds of Christmas candy, made Sunday by Marion W. Smith, operator of the pastry shop, was among the loss. Clifford Kincaid is owner of the book shop.

The brick building housing the businesses is owned by Frank Gage of Fairbury.

The apartment of Mr. and Mrs. E. A. Smith, who live above the stores, was considerably damaged. The Smiths are the parents of Marion Smith.

Earlier, firemen together with about 50 neighbors battled a pastureland fire at the William DeBoer farm, six miles south of Fairbury. Firefighters used shovels and wet gunnysacks to bring the fire under control. The flames burned off about 15 acres of land and came within a couple of blocks of buildings on the DeBoer farm. A lighted cigaret is believed to have caused this fire, officials said.

Davis Reverses Guilty Plea To Federal Charges

OMAHA (AP)—Clifford Harold Davis, 30, of Omaha Monday changed his pleas of guilty to two federal charges, one of them involving last year's robbery of the Decatur, Neb., State Bank.

Davis appeared in Federal District Court before Judge Richard E. Robinson.

Davis is one of three persons arrested in connection with the Decatur robbery. He switched his pleas on charges of bank robbery and of narcotics violation.

Davis entered a plea of innocent to a second narcotics violation charge.

The narcotics charges resulted from arrests while Davis was out on bond on the bank robbery charge.

Judge Robinson deferred sentence on the guilty pleas.

James Elwood Harless and Reta Lorraine Quinn, both of Des Moines, were the others charged in connection with the robbery.

DR. DALE D. WELCH

Welch Resigns As Hastings College Head

HASTINGS, Neb.—Dr. Dale D. Welch has resigned as president of Hastings College, it was announced by Hal Lainsow of Hastings, chairman of the Board of Trustees.

Dr. Welch is leaving to assume the position of vice president of the First of Iowa Corporation, investment bankers at Des Moines, Ia.

Lainsow said the opportunity presented to Dr. Welch "is of such a nature that he could not be expected to turn down the offer." Des Moines is Dr. Welch's home, and he has a daughter and grandchildren living there.

Dr. Welch assumed the Hastings presidency in 1952. He had been president of the University of Dubuque, Iowa, for 11 years and Alma College of Alma, Mich., three years.

In speaking of his association with Hastings College and his future plans, Dr. Welch said, "Mrs. Welch and I leave the work at Hastings College and the community with real regret and only because of the challenging opportunity that has been presented."

Texan Injured As Truck Hits Highway Bridge

NORTH PLATTE, Neb. (AP)—John Moore, 28, of Sunset, Tex., was injured Monday when the truck he was riding in crashed through a bridge under construction on Highway 83 near Maywood.

The State Safety Patrol said the truck was being driven at the time by Allen Moore, 16, brother of John. The brothers were driving back to Texas with a load of 30,000 pounds of potatoes.

The bridge has been under construction for some time, while a delivery of steel was awaited. Patrolmen said the driver drove around a barricade and the truck entered the bridge, skidding along the beams falling halfway through them.

The heavy beams on the bridge of the highway, running from McCook to North Platte, were bent under the weight of the truck.

Luther Nelson, 78, Veteran Hardware Dealer, Is Dead

OMAHA (AP)—Luther E. Nelson, 78, veteran Omaha hardware dealer, died at his home.

He was president of L. E. Nelson & Son Hardware Co. and past president of the Nebraska Retail Hardware Assn.

His widow, a son and a daughter survive.

Services will be Wednesday.

State's York Rite Masons Open Meeting

OMAHA (AP)—The annual meeting of York Rite Masons of Nebraska opened Monday and runs through Thursday.

The Royal and Select Masters in Nebraska conferred the Thrice Illustrious Masters degree Monday night. Most Illustrious Grand Master Brisben J. Hofer of McCook

Nebraska News

will preside over a session of the group Tuesday.

The Grand Council dinner is scheduled Tuesday night, after which the Super Excellent Master degree will be conferred.

The Royal Arch Masons of Nebraska will meet Wednesday and Thursday. Grand High Priest Harry A. Spencer of Lincoln will preside.

Wednesday members of the York Cross of Honour will have a breakfast meeting.

The annual dinner of the Nebraska Veterans Freemasons Assn. will be Wednesday noon. President Edward E. Carr of North Platte will be in charge. The Order of High Priesthood will be conferred Wednesday afternoon with Harold K. Bond of Sidney presiding.

The Past Grand High Priests' Assn. will hold a dinner meeting Thursday noon.

Services Held For Charles Kratzer, Victim Of Accident

Lincoln Star Special

SEWARD, Neb.—Funeral services for Charles Kratzer, 16, junior in the Seward High School, were held here Monday. The youth lost his life in an auto accident on a county road near here.

County Sheriff Ray Welch said the car in which Kratzer was riding plunged off the road after the driver, Tom Schenberger, 16, apparently lost control on a sharp curve while approaching a bridge. Schenberger remains hospitalized here. His injuries include a broken collar bone.

Two other youths who were passengers and escaped with minor injuries were William Spradley, 16, and Janet Wells, 16. Both have been released from the hospital after treatment.

The Kratzer youth is survived by his father, Charles of Seward.

Douglas Jailbreak Attempt Thwarted

OMAHA (AP)—Sheriff Patrick E. Corrigan said Monday a well planned jailbreak attempt had been thwarted.

He said jailers discovered that a bar on a north window of the Douglas County jail had been sawed. Deputies shook down the jail and found three saw blades in a plumbing walkway between two cell blocks.

A 24-foot "rope" made of blankets also turned up.

Corrigan said the plan apparently was to hang the blankets out the window and then swing through a window on the fifth-floor level. This would have put the prisoners inside the courthouse with access to many outside exits.

Judge Pays High Tribute To Scouting

OGALLALA, Neb. (P) — A prominent juvenile judge paid high tribute to Scouting and then declared that the program "is trying to run me out of business."

Judge Philip B. Gillian of the juvenile court at Denver said he had tried 100,000 cases in the last 20 years and "I can count on my fingers the number of Scouts that have appeared before me."

Mendenhall Elected

Judge Gillian spoke at a banquet of the Tri-Trail Boy Scout Council. Earlier Kirk Mendenhall, North Platte, was elected council president, succeeding D. C. Harvey of Wauneta.

"Juvenile delinquency will rise only 50 per cent in the next eight years if we're lucky," he said. "But if the trend continues as it has the last eight years, it will rise 100 per cent."

He said Scouting was one of the "greatest forces" in combating juvenile delinquency.

He listed these reasons why the scouting program is "so great":

- "1. Simplicity of living.
- "2. Belief in self.
- "3. Belief in other people.
- "4. Love of fellow man.
- "5. Discipline that scouting stresses.
- "6. Sense of obligation to other people.
- "7. Religious concept of human life as taught in scouting."

19 Counties

The Tri-Trail Council embraces 19 western and central Nebraska counties.

Other officers include: Wayne Hoffman of Cozad, Harold Oehlert of Ogallala, Roy Blaubelt of Holdrege and Dwight Egle of Wauneta, vice presidents; Max Wayman of Cozad, council commissioner, and Les Weil of North Platte, treasurer.

Named as national council representatives were John E. Harris of McCook, Ed Peterson Jr. of McCook, Dr. Fred Svoboda of Cozad, Carl Priesner of Ogallala, Harvey, and Dr. H. H. Walker of North Platte.

Elected as Tri-Trail council trustees were Harvey and Hoffman, 3 year terms; Mendenhall and Peterson, 2 year terms, and L. J. Titus of Holdrege, and Harold Larson of McCook, 1 year terms.

Temporary Rate Hikes For Omaha Cab Firms OKd

The rate increases asked by five Omaha taxicab companies were granted Monday, on a temporary basis, by the State Railway Commission.

The increases, effective Dec. 10, will continue until Feb. 1, by which time the Commission will decide whether to make the fare increases permanent.

Under the temporary rate hike, the fare for the first half-mile of travel advances from 35 cents to 45 cents. The new rate charges 10 cents for each additional half-mile, compared with a current rate of 10 cents for each additional three-fifths of a mile.

Various other adjustments in rates also are provided.

The request was filed jointly by Yellow Cab Inc., Checker Cab Co., Inc., Safeway Cabs, Inc., Ritz Cab Co., and United Cab Co., all of Omaha.

The companies contended Omaha cab rates are among the lowest in the nation for comparable cities. They cited increased costs of operation and called attention particularly to the difficulty in keeping drivers, who work on a commission basis. The compensation to drivers is too low to attract and hold drivers, the companies said.

New Hallam Generating Plant To Honor Power Field Pioneer

COLUMBUS, Neb. — Clarence C. Sheldon, 85, leader in the Nebraska's public power program over the last half century, has been given another honor by the Consumers Public Power District board of directors.

The board directed that CPPD's planned new power generating plant and facilities near Hallam, Neb., be known as "Sheldon Station." The site, between Lincoln and Beatrice, is where CPPD plans to construct a conventional power plant. Consumers also proposes to establish the state's first atomic power plant on the site. The atomic end of the plans is now in the final stages of negotiations with the

Sheldon

federal Atomic Energy Commission.

Sheldon is a charter member of CPPD's board of directors and its first and only treasurer.

President Earl I. Mead, Scottsbluff, and R. L. Schacht, CPPD general manager, praised Sheldon's work in telling the board of the power pioneer's accomplishments. They pointed out how Sheldon was one of the first to take up leadership in the state's power field during the near infancy days.

The Columbus man, a member of many civic and business organizations, also is an officer in many power, irrigation and other water resources organizations.

WILBERT

"Fill 'im up!"

Northeast Assessors To Meet In Norfolk

NORFOLK, Neb. — The Northeast Nebraska County Assessors Assn. will hold an all-day meeting Friday, at the Norfolk City Auditorium. The meeting was announced by Joy K. Nixon of Dakota City, Dakota County assessor.

Davis Heads Chamber

SCOTTSBLUFF, Neb. — A. R. Davis is the new president of the Scottsbluff Chamber of Commerce. Other officers include C. A. Thomas, vice president; Carl Baumgartner, secretary; and Dale Adams, treasurer.

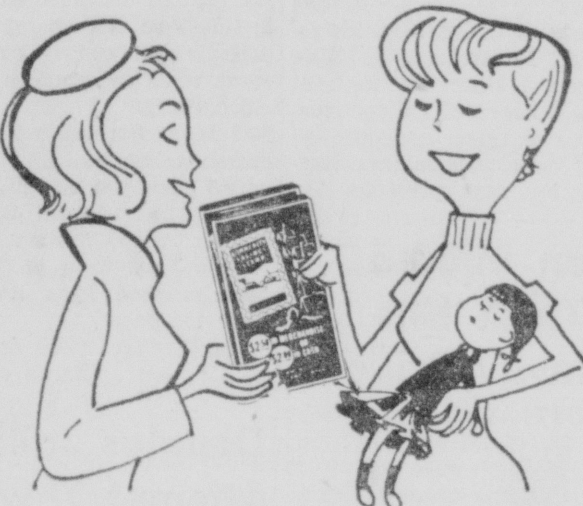

Two Youths Face Check Charges

Two 19-year-old youths were bound over to District Court on charges of issuing no-account checks with intent to defraud.

Edward Lombardo of Columbus, O., and Merle C. Timberlake of Monmouth, Ill., were charged with issuing a \$20 no-account check Nov. 15 on a Lincoln bank.

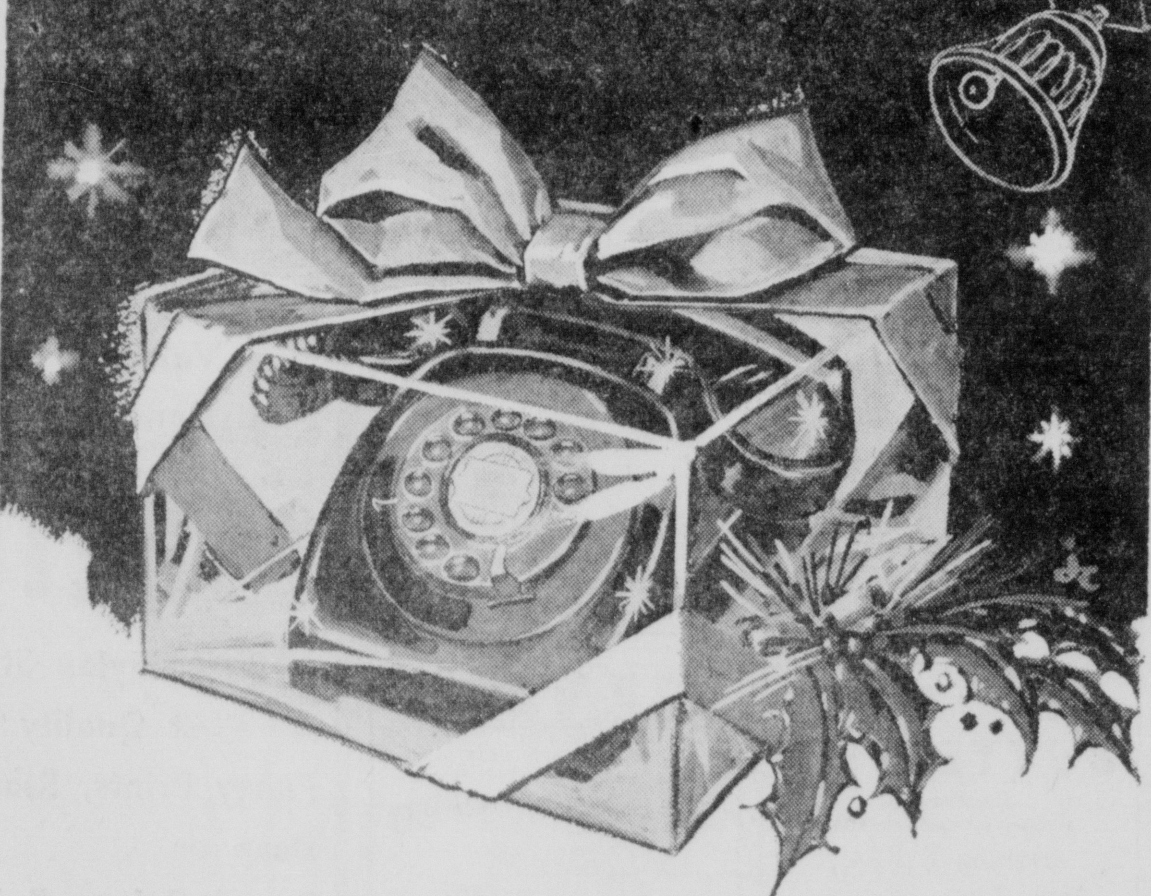

Lombardo pleaded no contest and Timberlake pleaded guilty in County Court and waived preliminary hearings. A \$1,000 appearance bond was set for each defendant.

R. Stinehagen Sentenced For Bank Burglary

OMAHA (P) — Federal Judge Richard E. Robinson Monday sentenced Roy Stinehagen, 49, to five years in prison for burglary of a Valparaiso, Neb., bank in October 1955.

A jury had found the former Lincoln man guilty last week. His sentence is to begin immediately. Stinehagen was the second man convicted of the burglary of the Oak Creek Valley Bank.

Williner Thompson, 52, of Lincoln, was found guilty of the same count by a Federal Court jury in Tulsa, Okla. Thompson, also convicted of a Kansas bank burglary, was sentenced to 15 years.

Taken in the Oct. 2 Valparaiso burglary was about \$1,200 in cash

Byron Firemen First In Drive

Lincoln Star Special

FAIRBURY, Neb. — The volunteer Firemen of Byron, Neb., were the first firemen's organization in Nebraska to complete their 1956 fund drive for muscular dystrophy, according to Mrs. Marvin Traeger of Fairbury, president of the Muscular Dystrophy Foundation of Nebraska.

The Byron donation is also the first contribution received by the state group, Mrs. Traeger added, and close to \$50,000 in U.S. Savings Bonds.

IOWA BROTHERS PLEAD GUILTY IN STICKUP CASE

By VIRGIL FALLOON
Star Staff Writer

Two Iowa brothers pleaded guilty to robbery charges Monday in Lancaster District Court involving the Thursday night holdup of Merle's Liquor Store in West Lincoln.

Paul P. Shaw, 23, of Shenandoah, Ia., admitted in his plea that he took \$200.96 at gunpoint from Vernon Johnson, the store's attendant.

Harry E. Shaw, 18, of Council Bluffs, Ia., admitted he drove the getaway car for his brother, helped to burn the checks included in the loot, and later drove around Lincoln for awhile to help establish an alibi for Paul, if needed.

Sentence Deferred
County Atty. Elmer Scheele arraigned the two before District Judge John Polk, who deferred sentence pending an investigation by Adult Probation Officer George Meyer.

Possible penalty for robbery is three to 50 years imprisonment. The younger Shaw was arrested at a Wahoo cafe about three hours after the holdup when a suspect car was spotted by a night watchman from a license number supplied by the Lancaster County Sheriff's office.

Paul Shaw was later picked up in Council Bluffs after Deputy Sheriff Robert Anderson and Frank Jaxox questioned the younger brother in connection with some post-holdup activities at a West O motel.

Handle Matched
A piece of a gun handle found at the scene of the robbery matched that of the revolver found in the younger Shaw's car.

Anderson said that the older Shaw admitted four previous holdups, which he said he did "single-handed." They included the holdup of a Lincoln liquor store, a Nebraska City filling station, the first robbery of Merle's Liquor store and the Farmer's Market at 4300 So. 14th last Oct. 23.

Paul Shaw, who was a former air policeman at the Lincoln Air Force Base until September, 1955, said he pulled the holdups because he "couldn't make ends meet" in supporting his wife and her two children by a previous marriage.

Shaw, who had registered at a West O motel with his wife prior to the holdup, drove his brother's car directly back to Council Bluffs, after the robbery.

Worried About Lady
Harry drove around Lincoln for awhile to establish an alibi for his brother in the case "lady who chased the car" had gotten the number.

Mrs. Merle Wilkens, wife of the store's owner, had entered the store as the bandit was leaving. Told to lie down on the floor, she followed him out and chased the car before losing it a short distance later.

Anderson, who investigated the report of strange activities between two Iowa-licensed cars at the motel, said this break and the cooperation of the Lincoln Police Department and the Nebraska Safety Patrol aided in the early solution of the Thursday night holdup.

Wilkens, the store owner, said approximately \$1,100 in checks and cash was obtained in the holdup.

Authorities said the older brother had worked for a nursery and a construction company at Shenandoah. The younger was employed by a Council Bluffs woodworking shop.

Old School Craftsman
WASHINGTON (AP)—William Greiner, 72, is a craftsman of the old school. Using hammers, chisels, anvil and white hot coals, plus good eye sight and powerful hands, he is fashioning out of iron the 400 complex parts for a six-foot-high iron cathedral gate.

The gate, crowned by a hedge of thistles and decorated with dolphin heads, is being made for the interior of the Washington National Cathedral.

Paul Shaw was later picked up in Council Bluffs after Deputy Sheriff Robert Anderson and Frank Jaxox questioned the younger brother in connection with some post-holdup activities at a West O motel.

Shaw, who had registered at a West O motel with his wife prior to the holdup, drove his brother's car directly back to Council Bluffs, after the robbery.

Worried About Lady
Harry drove around Lincoln for awhile to establish an alibi for his brother in the case "lady who chased the car" had gotten the number.

Mrs. Merle Wilkens, wife of the store's owner, had entered the store as the bandit was leaving. Told to lie down on the floor, she followed him out and chased the car before losing it a short distance later.

Anderson, who investigated the report of strange activities between two Iowa-licensed cars at the motel, said this break and the cooperation of the Lincoln Police Department and the Nebraska Safety Patrol aided in the early solution of the Thursday night holdup.

Wilkens, the store owner, said approximately \$1,100 in checks and cash was obtained in the holdup.

Authorities said the older brother had worked for a nursery and a construction company at Shenandoah. The younger was employed by a Council Bluffs woodworking shop.

Paul Shaw was later picked up in Council Bluffs after Deputy Sheriff Robert Anderson and Frank Jaxox questioned the younger brother in connection with some post-holdup activities at a West O motel.

COFFEE UP
RIO DE JANEIRO (AP)—Coffee drinking has become more expensive in all of places—Brazil. The price control board has approved a 50 per cent increase in the price of the demitasse which residents of the world's largest coffee producing country toss off a dozen times a day. The price now is 2 1/4 cents compared with the former price of 1 1/2 cents.

78,000 New Phone Books Are Delivered

The 78,000 copies of the Lincoln Telephone Directory that were recently printed and delivered would reach three-fourths of a mile high if stacked up, or 40 times as high as the Capitol.

The Lincoln Telephone and Telegraph Co. also reported an increase in listings of 2,650, and eight more yellow pages for a total of 224.

The total number of listings in the new directory total approximately 44,255, including Lincoln and small exchanges whose numbers are listed.

There are 17,200 listing changes in addition to 705 telephone numbers which were changed to make greater use of the company's facilities.

A total of 4,223 more telephones are in use in Lincoln since the last directory and there are 10 more white pages in the book.

The eight green pages list postal regulations and city information. The Journal-Star Printing Co. used four freight carloads of paper to print the directories.

James E. Cheever Rites Wednesday
Funeral services for James E. Cheever, 86, 1904 No. 29th, will be held at 1:30 p.m. Wednesday at Wadlow's, the Rev. Ray Harper officiating. Burial will be in Lincoln Memorial Park.

Mr. Cheever, who died Monday, had been a water foreman for the Union Pacific Railroad. He was a member of the Christian Church and of Masonic Square Lodge 151 at Valparaiso, Neb.

Surviving are his wife, Dena; sons, Lawrence and William, both of Los Angeles, Calif.; stepson, Edwin R. Fifer of Lincoln; brothers, Cecil R. Cheever of Denver and Eugene Cheever of Herington, Kan.; sisters, Mrs. Irene Van Cott of Lincoln and Mrs. May Erxson of Howard, Minn.; four grandchildren and six great-grandchildren.

Alfred Longman Dies At Kearney
Alfred Michael Longman, 75, a Lincoln resident from 1942 until 1953, died in Kearney, Neb., Monday.

A native of Logan, Ia., Mr. Longman had lived at Eagle for 24 years before coming to Lincoln. He was in the banking and real estate businesses at Eagle.

Surviving are a son, Vernon Longman of Lincoln; daughters, Mrs. Warren Barney of Kearney, Mrs. George Vieri of Hollywood, Calif.; sister, Mrs. Rodney McQuarry of Malibu, Calif.; brothers, E. H. Longman of Flint, Mich., Arthur Longman of Seattle, Wash., and five grandchildren.

Youth Hurt Slightly
Raymond Hagan, 17, of 2914 So. 48th, suffered slight abrasions on his face and right leg Monday when the motor scooter which he was driving collided with a car at 48th and South.

AF Organizing Giant Airlift To Bring 21,000 Hungarian Refugees Into U.S.

WASHINGTON (INS)—The U.S. Air Force was reported organizing Monday a giant airlift to bring 21,000 Hungarian refugees to the U.S. within the next 30 days.

It was said that 100 to 200 transport planes will be involved in the "lift" and that the refugees will be brought to this country at a rate of 500 to 1,000 a day.

Only a trickle of Hungarian refugees have reached the U.S. so far. These have been brought in commercial planes, and are being housed at Camp Kilmer, N.J. The President has ordered the admission of refugees stepped up to 21,500.

High officials, meanwhile, predicted that the stream of refugees flowing out of Hungary will reach 200,000 within weeks unless the Communists seal off the Austrian border.

No Let-Up

The officials said the number of refugees is already well over 100,000. They added that there is no sign of a let-up in what is proving to be a mass exodus almost without parallel in history.

The prediction was made as the American Red Cross launched a campaign to raise an initial five million dollars to aid the refugees and also to provide food and medicine for another 200,000 victims inside Hungary.

Gen. Alfred M. Gruenther, president-designate of the Red Cross declared in a disaster fund appeal

that the Hungarians are "paying dearly because they dared to take action to re-gain their freedom."

Leader Killed

By KATHARINE CLARK

BUDAPEST (INS)—(By Telephone)—Enraged Hungarians killed the Russian commander-in-chief in the industrial city of Pecs in southeast Hungary after Russian troops killed 20 demonstrators.

Workers leaders in the area were arrested and a fierce battle was reported in progress in the mountains near Pecs.

The new outbreak of violence against the Russians was disclosed as leaflets were distributed in Budapest ordering a new uprising in the Hungarian capital next Thursday.

Premier Janos Kadar sent a government plane to Pecs to bring Bela Kovacs, leader of the small holders' party, to Budapest for consultation in an attempt to reach a settlement with the workers.

City Hall Seized

(Reports reaching Vienna said 1,500 Hungarian students in the town of Sarospatak, near the Czech border in northeast Hungary, seized the city hall and other public buildings after fighting Soviet troops).

The Pecs clash occurred after Hungarians were forbidden the use of the old Nationalist emblem of the late 19th century liberal movement headed by Louis Kossuth. They wanted to use the emblem on their local newspapers.

An excited crowd went to the Soviet commander's headquarters to protest.

Russian troops fired into the crowd, killing a score. The angry Hungarians stormed the headquarters and killed the commander of the Soviet forces. Pecs, a city of more than 77,000, is a railroad and industrial center which figured prominently in the nationwide rebellion last month which was put down by Soviet tanks and troops.

"Nothing can take the place of my trust in St. Joseph Aspirin For Children"

—MRS. DONALD HOLLISTER, Los Angeles

St. Joseph Aspirin For Children is approved by more doctors than any other brand. Mothers know from experience they can trust its fast, gentle action. It's America's mother-and-child favorite. Never accept a substitute.

NEHS Hosts High School Debate Meet

Lincoln Northeast High School will be host to students from 24 other high schools at an invitational debate tournament Saturday.

It is the largest number of schools to register for the annual tournament since it was started five years ago. Northeast Debate Coach A. J. Mueller is in charge.

"Resolved: That the United States government should support basic agricultural products at not less than 90 per cent of parity" is the debate topic.

In addition to four rounds of debate, there will be contests in extemporaneous speaking, radio newscasting and original oratory.

A sweepstake trophy will go to the school which amasses the most points in all events. Students from Northeast will compete but the school is not eligible for the top award.

Another trophy will go to the school which wins in debate. Each school enters two teams. There will be medals for team and individual winners in other contests.

High schools which will take part:

From Lincoln: Northeast, Lincoln High, Southeast, University High, Pius X.

From Omaha: Holy Name, Benson, North, Cathedral, South, Central, Tech, Westside, Mercy.

Others from Nebraska: Beatrice, St. Joseph's of Beatrice, McCook, Fremont, Grand Island, Nebraska City, Hastings, North Platte.

From out of state: Washington High School, Sioux Falls, S.D.; Abraham Lincoln, Council Bluffs, Ia.; Sioux City Ia., Central.

Rites Tuesday For Boy Who Drowned

Funeral services for nine-year-old Rex Lee Hayes of 1005 D, who drowned Sunday morning in a farm pond near Shickley, will be at 2 p.m. Tuesday at Hodgman-Splain.

Dr. Frederick Roblee will officiate. Burial will be in Lincoln Memorial Park.

Parents of the boy are Mr. and Mrs. Kenneth Clark. Also surviving are his sisters, Sandra and Sheila, and brother, John, all at home, and grandparents, Mr. and Mrs. F. L. Warren of Bradshaw, Neb.

Heavy Theft

FUJII CITY, Japan (AP)—Truck driver Etsuro Sano, 24, was jailed on charges of stealing 68 manhole covers, 50 fire bells and numerous steel guard rails along the 60-mile highway from here to Tokyo.
